HOLMES' HEAD IN A HALTER

Or Very Nearly So, for the Murder of Little Howard Pietzel.

A Murder of Fiendish Cruelty—The Boy's Remains Unmistakably Found.

Indianapolis, Ind. Aug. 30.—Coroner Carter's jury has brought in a verdict that the remains of the body found in the chimney hole of the house at Irvington are the remains of young Howard Pietzel, and that he came to his death through the instrumentality of cyanide of potassium administered by H. H. Holmes.

Towards the conclusion of the inquest some interesting testimony was given by Druggists Navin and Perry. John Navin said Holmes visited his store frequently during the first week of October, and several times purchased solution of cocaine, and one time called for four grains of morphine dissolved in a two drachm vial of water. Mr. Navin readily recognized him by a photograph.

Druggist Perry sold Holmes at one time a pound of chloroform. This was on the 2nd of October. Holmes several times lounged about his drug store, accompanied by a boy who he said was his son, and for whom he bought candy. As recognized by the photograph, the boy was little Howard. Several dentists and doctors also contributed evidence that the remains were those of young Pietzel.

During the day Doctors Thompson and Barnhill cleaned up some of the bones found. The lower part of the intestines and stomach, with parts of the liver and spleen, were found; also the first vertebrae at the base of the skull, the Adam's apple and cheek bones. The physicians say there is no doubt that these are the remains of a boy of the age of Howard Pietzel.

In the charred mass that was pulled out of the chimney hole, fifteen teeth were found. Dr. O. J. Byram, dentist, was called in. He sorted the teeth and found seven upper and eight lower teeth. He set these in imitation jaws of plaster of Paris and sent it to the coroner. He also found a piece of the lower left jaw bone containing the sockets of a six year old molar. The Irvington physicians are of opinion that Holmes gave the boy cyanide of potassium and while he was under this influence, doubled the boy up and put him into the stove, after which he covered the body with cobs, pieces of trunk and chunks of wood. He then saturated the pile with coal oil and reduced everything to ashes.

It is supposed that when the stove cooled down, Holmes shovelled the ashes into the stove hole. The stove was in the kitchen and Holmes was apparently not aware that there was an opening in the flue to the cellar beneath. It was the failure to find this opening that brought about this discovery of the charred remains.

CONDENSED DISPATCHES.

Moscow, Aug. 29.—Half the town of Yukonoff, Smolensk, containing about 4000 inhabitants, has been destroyed by fire.

Washington, D. C., Aug. 30.—Senor Mendonca, the Brazilian minister, has just received official notification from his government of the pacification of the state of Rio Grande de Sul, which has been in revolt for a long time past.

Colon, Colombia, Aug. 30.—Some 15,000 bunches of bananas, intended as a cargo for the George Dubois, were dumped into the harbor Sunday at Port Limon. The vessel arrived two days late and the fruit was badly damaged in consequence. The loss falls on the Matina Fruit Co.

Curran's ruling passion was his joke, and it was strong, if not in death, at least in his last illness. One morning, says the Green Bag, his physician observed that he seemed to "cough with more difficulty." "That is rather surprising," answered Curran, "for I have been practising all night." While thus lying ill Curran was visited by a friend, Father O'Leary, who also loved a joke. "I wish O'Leary, said Curran to him, abruptly, "that you had the keys of heaven." "Why, Curran?" "Because you could let me in," said the facetious counsellor. "It would be much better for you, Curran," said the good-humored priest, "that I had the keys of the other place, because I could then let you out!"

NEW ADVERTISEMENTS.

CONGREGATIONAL CHURCH.

Two Sermons will be preached in the Temperance Hall, Pandora St., on Sunday next, September 1st, at 11 a.m. and 7 p.m., by Rev. J. Bushell, Congregational Minister, of Tacoma. A cordial invitation is extended to everybody and to Congregationalists especially. th-fr-sat

LABOR DAY.

NOTICE is hereby given that by virtue of the provisions of an act of the Parliament of Canada (57-58 Victoria, Chap. 55) assented to on the 22nd July, 1894, the first Monday of September is a statutory holiday, designated as "Labor Day," and that therefore the Municipal Offices will be closed on Monday next, the 2nd prox.

JOHN TEAGUE,
Mayor.

Victoria, August 30th, 1895.

A LONG DESCENT.

One Workman Killed from a Scaffold—Others Narrowly Escape.

Cleveland, Ohio, Aug. 30.—Jas. Beckmeister, fell five storeys, from the top of the World building to the sidewalk, and was instantly killed. The body of the falling man struck John Nickson, who was walking along the sidewalk, with terrific force, breaking the back and both legs of the latter. He is dying.

Two other men named Lewis and Cormler, who were on the scaffold with Leckmeister, had a desperate struggle for their lives. Lewis was thrown from the scafforld and caught with his hands on a narrow coping under the windows. He managed to work his way along until he reached the fire escape, and was then easily rescued. Cormler clung to a rope for some time, and was finally rescued by a man in the building, who stepped out on the window ledge and swung him into the room.

Poughkeepsie, N.Y., Aug. 30.—Miss Amelia E. Haswell, the Troy missionary who has been associated with the escape of Oliver Curtis Perry from Mattewan asylum, was called for examination this morning. Her counsel, Mr. Keach, entered a plea of not guilty, and formally demanded an immediate examination.

DON'T WANT TO PLAY.

Vancouver Lacrosse Team Want the Match Postponed for One Week.

Vancouver, Aug. 30.—The Vancouver lacrosse team have asked for a postponement of the match against Victoria tomorrow till next Saturday. If they win they will play Westminster for the championship, and will then consider the eastern trip.

"Bob" Johnson, Canadian amateur champion oarsman, and a member of the Burrard rowing club, returned to Vancouver last night, when he received quite an ovation.

W. B. Sanborn, of the Cornell crew, left on the Charmer to-day on his way home to Oakland, Cal. He was with the crew as a substitute, which rowed in England. He rowed against the Columbia and Pennsylvania colleges this year.

Mrs. Sarah McGimpsey, of Nanaimo, who was taken to Westminster asylum Wednesday by her husband, William J. McGimpsey, died last night. An inquest was held, and a verdict returned of death from natural causes. The body was conveyed to Nanaimo to-day.

TO-DAY'S MARKET REPORT.

Quotations on the Chicago and New York Exchanges.

New York, Aug. 30.—At 3 p.m. closing money on call was easy at 1 per cent. and closed at that. Prime mercantile paper, 3½ to 4½ per cent; sterling exchange, firm; actual business in bankers' bill for demand, 4.89¾ to 4.90; do, 60 days, 4.88¾ to 4.89; posted rates, 4.89 to 4.90 and 4.90 to 4.91; commercial bills, 4.88¼; silver certificates 67⅛ to ⅝; bar silver, 66⅞ Mexican dollars, 53¼ Government bonds firm.

At 10.15 a.m. the initial prices were generally at slight concessions from last night's final sales. Tobacco made an exceptional decline of 1⅝ per cent. to 92. Speculation is now firmer in tone. Tobacco has rallied 1½ per cent., and an inquiry for Tennessee coal has improved the price 1¼ per cent.

Chicago, Aug. 30.—Wheat continued its advance to-day, opening about steady and advancing sharply. Northwestern receipts were not so large as last year. Cables were higher and there was a prospect of favorable visible report. September opened ¼ lower at 61¼ and advanced to 62¼. At the close: August, 61⅛; September, 61⅝; December, 63½ to ⅝; May, 68.

MAJOR-GENERAL GASCOIGNE.

The Career of the New Commander of the Canadian Militia.

Major-General Herbert has been invested with the Order of a Commander of St. Michael and St. George for his services in connection with the Canadian Militia. Major-General Gascoigne, the new British officer commanding the Canadian militia, is not an entire stranger to Canada; for in 1870, when a colonel, he was sent on particular service to Canada as A.D.C. to Lieutenant-General Lindsay, who was then commanding Her Majesty's forces in British North America. The gallant officer joined the Scots Guards as an ensign in 1863, at the age of nineteen. He speedily rose to the rank of captain, and in 1867 he became adjutant. In 1881 he was appointed regimental major, and six years later a lieutenant-colonel. On July 1st, 1891, he became colonel of his regiment, which position he has only just relinquished. During this period he saw valuable staff service. Besides his special trip to Canada, he was A.D.C. to the Inspector-General of Reserve Forces from September, 1869, to June, 1873. In 1880 he was appointed commandant of the School of Instruction for Auxiliary Forces, London, and held the command for two years. He was then colonel of his regiment, and fought at Mahuta and the battle of Tel-el-Kebir. For this he received the Egyptian medal with clasp and the bronze star. He also possesses the "Suakim clasp."—Canadian Gazette.

—Don't forget the labor day picnic and excursion to Sidney. A first-class programme of sports has been arranged. Dancing afternoon and evening. Music by the Bantly Family.

PATERSON SUCCEEDS SCHULTZ

As Governor of Manitoba—Will Be Sworn In On Monday.

Soo Canal to be Opened Sept. 9th—Nebraska Favors Alberta for Settlement.

Ottawa, Aug. 30.—Hon. J. C. Patterson, late minister of militia, has been appointed Lieutenant-Governor of Manitoba, and will be sworn in on Monday.

Monday, September 9, has been definitely decided on as the date of the opening of the Soo canal. There will be no official or formal ceremonies.

The imperial order-in-council prohibiting pelagic sealing in the vicinity of certain Russian islands is founded on an act passed in the last hours of the Rosebery administration. The order does not bring into force nearly all the restrictive regulations which the British government had power to promulgate. This is regarded here as indicating the breadth of Mr. Chamberlain's colonial policy. Great things are accordingly hoped of the new colonial secretary.

Two Nebraska delegates have reported favorably on Alberta as a field for settlement. They will settle in Stony Plains this fall, and expect 50 or 100 Nebraska families to follow in the Spring.

The official investigation by Captain Smith into the wreck of the steamer Mexico on Belle Isle on July 7, exonerates the master from blame. Captain Smith reports that the steamer overran her course fifteen miles through being in an unknown 3 1-2 knot easterly current.

The charge of piracy against Labrador fishermen has been clearly proven. The report says that they not only robbed the wreck of the cargo and provisions; but unbent her sails and looted the officers' effects, including nautical instruments.

Winnipeg, Aug. 30.—The long standing dispute between the city council and the electric street railway company was satisfactorily settled to-day.

The demand for harvest hands continues.

A Fort Francis Saloon keeper was to-day fined $350 for violation of the excise regulations.

THE REPORT DENIED.

That the Stability of the A. O. U. W. is in Danger.

Toronto, Aug. 29.—F. C. Inwood, immediate past grand master of the A.O. U.W. for Ontario, and senior representative for Ontario in the Supreme lodge, says, with reference to a dispatch from Buffalo stating that the order is in danger because of a squandering of the funds, that at a recent meeting of the supreme lodge in Chicago, the financial statements were entirely satisfactory, and that reports received since then show that the same sate of affairs has been maintained. As to members leaving the order, he says, the report is entirely without foundation, the monthly reports to the supreme recorder showing no material change as to lapses.

A LITTLE FRENCH FUMING.

Over the Waller Case—He "Should Have Been Shot."

Paris, Aug. 30.—The Estafette protests against the statement made in some of the American papers relative to the sentence and imprisonment of ex-Consul Waller, and says that if Frenchmen sold arms to enemies of the United States, Americans would never tolerate any interference on the part of the cabinet of France. "We need not pay any attention to idle complaints of these American papers, indeed, Waller ought to have been immediately shot for his daring treachery."

ST. LOUIS LEPER AT LARGE.

Escaped While the Officers Were Deliberating Where to Put Him.

St. Louis, Mo., Aug. 30.—A leper whose malady is well defined, and which has been pronounced genuine by leading physicians and the health authorities, left St. Louis last night for parts unknown. He came here from Southern Texas six months ago. The disease did not show on the face or hands, but was virulent on the body under his clothing. The health authorities had nowhere to send him, the pest houses being occupied by smallpox patients. He left town while the authorities were discussing the dilemma. The authorities will not give his name or where he lived during his residence in town.

LAW INTELLIGENCE.

In Rogers v. Hirst Mr. Justice Drake, in the Supreme Court, this morning made an order on the application of Harriet Hirst, allowing the receiver, C. N. Westwood, to bring an action against the late receiver, James Charles Prevost, to recover the sum of $5,503.28, being the amount due to the estate of the late John Hirst according to the accounts filed by Mr. Prevost after giving him credit for $4,500 paid into court by him since filing the said accounts. Mr. Prevost will have a defence to this action on the ground that he retained his commission out of the funds. As the estate is a large one and large sums of money have passed through Mr. Prevost's hands his set-off will probably amount to nearly the sum sued for. Mr. G. H. Barnard appeared on behalf of the applicant.

Dr. Price's Cream Baking Powder
World's Fair Highest Medal and Diploma.

HOLMES' DEADLY DRUG.

Further Evidence of the Acts of This Past Master in Murder.

Indianapolis, Ind., Aug. 29.—The drug with which Howard Pietzel was killed, before his body was burned in the big stove in the Irvington cottage, was found buried in the barn. It was given to the coroner, who said: "If there is any killing to be done, this is the drug with which to do it." Boys digging under the Holmes house found the two feet of Howard Pietzel. They had been burned, but not destroyed, and were evidently too bulky to put into the chimney hole. With the feet was found buried a five quart can. There was some coal oil in it. All the witnesses were before the coroner and the grand jury today. The coroner will undoubtedly corroborate the conclusions already reached by the detectives. The grand jury is hearing the testimony to-day and will return an indictment against Holmes.

CHINA'S ASSURANCES.

Of Bona Fides in the Kucheng Affair Are Received.

Washington, D. C., Aug. 30.—The Chinese minister to-day made the formal announcement of his intention to leave the United States next month for Spain, to which country he is also accredited. The minister assured the secretary that he called upon the express direction of his government, as received in a cable dispatch from the Chinese foreign office, to convey direct the official assurance of the desire on the part of the Peking authorities to make adequate reparation for the injury done to American interests by the Chinese rioters, and to set at rest the reports which represent a different spirit on the part of the Chinese. He said the cablegram brought assurance of the co-operation of the Chinese authorities in getting at the facts of the riots and confirmed the information already received that Consul Hixson was sitting in the inquiry at Kucheng with the Taotai Hsu Sing I, who holds equal rank with Mr. Hixson in accordance with treaty relations.

THE GREAT METROPOLIS.

The Senate Deputy Speakership—People Strike and Starve.

London, Aug. 29.—In the House of Commons to-day Mr. Chamberlain, secretary of state for the colonies, asked leave to introduce a bill for the purpose of removing all doubts as to the validity of the act of the Dominion of Canada respecting the deputy speaker of the senate. He explained that this bill was prepared by a predecessor, and that there was no doubt of the validity of the act, but it was best to make the matter certain. Mr. Chamberlain also said that he was not aware that the matter had been made a party question in Canada. The bill eventually passed its first reading.

The case of Dr. Anderson, who has complained of illegal treatment at the hands of the judges at Tobago, an island of the British West Indies, has been brought to the notice of several members of the House of Commons by Earl Stanford, president of the civil rights defence committee. Assistance has been promised Dr. Anderson, and it has been agreed that his case shall be investigated.

Four thousand additional laborers have joined in the Dundee millworkers strike. It is estimated that fully 30,000 persons are now idle through the strike.

The consignment of California fruit, which arrived by the steamer New York, was in much better condition than any of the former shipments. The Bartlett pears were too ripe, and this fruit consequently sold at from 9s. to 11s. a box at Covent Garden market sale. Hardy and Duchess pears brought 12s. a box, and clingets, halves, 4s. 6. Peaches brought from 5s. to 5s. 9d. a box. Plums from 4s. to 5s. The quality of the fruit received by the New York will restore the confidence of the dealers.

The strike of the jute workers at Dundee continues to spread, 30,000 operators being now out. The masters have given notice to their employes that if they do not return to-morrow the factories will close, and the lockout continue indefinitely.

IN FAVOR OF GREAT BRITAIN.

If Put to the Vote Hawaiians Would Be for the British.

London, Aug. 29.—According to a recent interview, Congressman Samuel C. Hilbert, of California, recently visited Honolulu, and it is understood that he will urge in congress the necessity of sending a commission for the purpose of studying the situation there. It is explained that Mr. Cleghorn, the father of Princess Kaiulani, is now en route for England, accompanied by ex-Consul Wodehouse. It is believed that one of the objects of their visit is to present to the British government a full and detailed account of the situation in the Hawaiian islands and the cause that led to the overthrow of the monarchy there. The natives, it is thought, were not wholly opposed to the policy of annexation to the United States.

Still, failing to bring about the restoration of the monarchy to which they naturally incline, they would really prefer annexation to Great Britain. Of course, the American commercial influence is in the ascendant, but the British influence is also large. Col. McFarlane favored a permanent republic, or else a permanent restoration of the monarchy, the best elements of both parties forming a coalition for the support of the government. Failing such coalition, annexation to the United States would be the most advantageous course commercially. But there is no doubt if a test vote were taken, the natives, who constitute a majority, would vote largely in favor of closer political relations with England. The political upheavals which have occurred there have never seriously affected the prosperity of Hawaii. Sugar, cotton and other industries have not suffered greatly.

OSBORNE, IDAHO, IN PERIL.

Surrounded by Forest Fires and Communication Cut Off.

Wallace, Idaho, Aug. 29.—Osborne is surrounded by immense forest fires and momentarily threatened with destruction. In response to a telephone message the fire department with the fire apparatus was loaded aboard a special train and left to assist the neighboring town in its peril. Osborne is in the Coeur d'Alene district, in a deep canyon, with mountains on both sides, which are heavily timbered, and more than likely that the town is doomed. The fears are strengthened by the fact that communication cannot be had with the threatened town by either telephone or telegraph.

GOVERNOR SCHULTZ DENIES

Any Conference With Sir Mackenzie Bowell on the School Question.

Winnipeg, Aug. 29.—Sir John and Lady Schultz returned to-day from the West. Reports have been current for several days that Sir John was west conferring with Sir Mackenzie Bowell on the school question. A reporter called on Sir John at Government house, when His Honor said the report that a conference had taken place on the school question was perfect nonsense. He did not think there was any official talk or conference between the premier of the Dominion and Manitoba or he would have heard of it. His Honor said he had not been informed that Mr. Patterson would be sworn in on Monday next. So far as he was aware, matters in connection with the governorship remained unchanged.

Vice-President Stevenson of the United States passed through the city to-day on his return east.

INTERNATIONAL NAVIGATION.

The Rules to Prevent Collisions Soon To Be Accepted.

Washington, D. C., Aug. 30.—The prospect for the international acceptance of the Washington rules to prevent collision at sea is reported bright by Navigation Commissioner Chamberlain, who has just returned from an informal consultation with Ambassador Bayard and the British authorities, upon the subject. After the assent of nearly all maritime nations to the rules had been secured last year by the United States, Great Britain, in February, joined by other powers, asked for delay until the rules could be referred to a parliamentary committee. This committee, which was about to render a generally favorable report, came to an abrupt end on the dissolution of parliament, owing to the defeat of the late ministry. A new committee must be appointed and the desire of the United States is that the committee be appointed at the present session of parliament has been clearly indicated to the British government.

The delay in appointing the committee until February might impede action by congress, should any be necessary, and it is expected that parliament will show the same courtesy to the United States which congress, at the last session showed to Great Britain.

THE STOCK MARKET.

Share Speculation Unsettled and Prices Irregular—Closing Prices.

New York, Aug. 30.—The Evening Post's special London cablegram says: Of the increase in the Bank of England coin and bullion this week £829,000 will be received from abroad, among which is £419,000 in bars and United States coin bought, and £125,000 imported from Australia. On the other hand £455,000 was withdrawn for South America, £200,000 for the Cape and the rest for Alexandria and Bombay. Kaffirs are still forging ahead, but profit taking has resulted in many declines in "Yankees." The tone of the latter, however, is still bullish and a reaction was inevitable after such a sharp rise. St. Paul was good and the Canadian Pacific improving.

The share speculation to-day was unsettled in tone and the movement of prices was very irregular. The large appreciations in values of the past few days offered tempting opportunities to realize good profits, which were taken advantage of, and the bear element took advantage of this selling to put out fresh lines of shorts. It cannot be said, however, that there was any concerted attack upon the market as a whole, for some shares were well supported and moved upward. The railway list was practically neglected, the only change of importance being a break of 2½ in Rio Grande Western preferred. Speculation was unsettled at the close. Closing prices as follow: Sterling exchange, 60 days, 4.80; sterling exchange, demand, 4.90; C. P. R., in London, 56¾; C. P. R., in Montreal, 56½.

None But Ayer's at the World's Fair.

Ayer's Sarsaparilla enjoys the extraordinary distinction of having been the only blood purifier allowed an exhibit at the World's fair, Chicago. Manufacturers of other sarsaparillas sought by every means to obtain a showing of their goods, but they were all turned away under the application of the rule forbidding the entry of patent medicines and nostrums. The decision of the World's fair authorities in favor of Ayer's Sarsaparilla was in effect as follows: "Ayer's Sarsaparilla is not a patent medicine. It does not belong to the list of nostrums. It is here on its merits."

—Don't forget the labor day picnic and excursion to Sidney. A first-class programme of sports has been arranged. Dancing afternoon and evening. Music by the Bantly Family.

The Intrinsic Worth

and value of E. B. Eddy's Matches experienced by thousands, and which your father and grandfather used, has culminated in their being known from the Atlantic to the Pacific as the

Only Reliable Matches.

AWAITING HIS STATEMENT.

The Department Will Do Nothing Until They Receive Waller's Reply.

Washington City, Aug. 29.—It is probable that no further action will be taken in the case of ex-consul Waller until his statement, taken by Newton D. Eustis and Mr. Alexander, is received and examined. It is stated that the case will then be a purely legal one, and that the action of the department will depend on the lawfulness of the French military court and its actions and the legal status of Mr. Waller's contentions. The statement of Mr. Waller is also to be compared with the statements of Consul Wetter, of Tamatave, who has made a report to the department of facts gathered by him in Madagascar. There is yet wanting a copy of the record of the arrest and conviction of Waller, which record the French government has promised. If it is not forthcoming, the case will be that much stronger against the French government. If it has not arrived by the time the department is prepared to act on the case, as promised to Consul Wetter and Mr. Waller, the probabilities are that the French government will be asked to release the ex-consul at once and to indemnify him for the wrongs he has suffered.

—No appetite? Then do not try to force food down; but use the most scientific means for restoring tone to the stomach. How? Why, by taking Ayer's Sarsaparilla, and in a surprisingly short time your appetite will come again, and come to stay.

—Errors in diet corrected by the use of Adams' Tutti Frutti. See that Tutti Frutti is on each five cent package.

THE GOLD EXPORTATION.

The Treasury Figure Remains at the One Hundred Million Dollar Point.

New York, Aug. 29.—Hoskier, Wood & Co. will ship $25,000 of gold to-morrow. Members of the firm say this completes the exportation of gold required to pay for the new 4 per cent. government bonds returned from Europe up to the second week of September, and that the firm hopes not to be required to make further shipments after that date.

Washington City, Aug. 29.—To-day's statement of the condition of the treasury shows: Available cash balance, $182,068,949; gold reserve, $100,432,946. The treasury department shipped $25,000 in $1 and $2 bills to Chicago to-day on telegraphic notice from New York that $25,000 in gold or greenbacks had been deposited in the sub-treasury for transfer to Chicago. This is the first shipment under the order issued yesterday.

In Advanced Years

The strength and pure blood necessary to resist the effects of cold seasons are given by Hood's Sarsaparilla.

"I have for the last 25 years of my life been complaining of a weakness of the lungs and colds in the head, especially in the winter. Last fall I was again attacked. Reading of Hood's Sarsaparilla I was led to try it. I am now taking the fifth bottle with good results. I can positively say that I have not spent a winter so free from coughs or pains and difficult breathing spells for the last 25 years as was last winter. I can lie down and sleep all night without any annoyance from cough or pain in the lungs or asthmatic difficulty." E. M. CHAMBERS, J. P., Cornhill, N. B.

Hood's Sarsaparilla Is the Only True Blood Purifier

Prominently in the public eye today.

Hood's Pills cure habitual constipation. Price 25c. per box.

NO. 249.

A BY-LAW

To Amend the Ross Bay Cemetery By-Law.

Whereas it is expedient to amend the Ross Bay Cemetery By-Law, 1894;

Therefore the Municipal Council of the City of Victoria enacts as follows:

1. Section 45 of the Ross Bay Cemetery By-Law, 1894, and the forms "C" and "D" in the said section referred to, and contained in the schedule to the said By-Law, are hereby repealed, and the said By-Law shall in all other respects remain in force and be read as if the said section 45 and the said forms "C" and "D" therein referred to had not originally been inserted in the said By-Law.

2. The following Section shall be inserted in lieu of Section 45 so repealed in said By-Law:

"45. Every application for permission to inter the body of any person shall be accompanied by a certificate of a duly qualified medical practitioner setting forth clearly his opinion as to the cause of death."

3. This By-Law may be cited as the Ross Bay Cemetery By-Law, 1894, Amendment By-Law, 1895.

Passed the Municipal Council the 15th day of August, 1895.

Reconsidered, adopted and finally passed the Council the 19th day of August, 1895.

(L.S) JOHN TEAGUE, Mayor.

WELLINGTON J. DOWLER, C.M.C.

NOTICE.

The above is a true copy of a by-law passed by the Municipal Council of the City of Victoria, on the 19th day of August, A. D. 1895, and all persons are hereby required to take notice that anyone desirous of applying to have such by-law, or any part thereof, quashed, must make his application for that purpose to the Supreme Court within one month next after the publication of this by-law in the British Columbia Gazette, or he will be too late to be heard in that behalf.

WELLINGTON J. DOWLER, C.M.C.

Proposed Local Improvement.

Notice is hereby given that under and by virtue of the Municipal Act, 1892, and Amending Acts, and By-laws made thereunder, the Corporation of the City of Victoria propose to lay a pavement of wooden blocks upon a concrete foundation on the streets or portions of streets particularly hereunder mentioned, in the City of Victoria, and to assess the cost thereof against the property fronting thereon.

STREETS OR PORTIONS THEREOF PROPOSED SO TO BE PAVED.

View Street, from Broad Street to Douglas Street;

Broad Street, from Fort Street to Yates Street;

Government Street, from Broughton Street to Johnson Street;

Yates Street, from Douglas Street to Wharf Street;

Fort Street, from Government Street to Douglas Street.

ASSESSMENT PROPOSED TO BE LEVIED THEREFOR.

View Street, $7.60 per foot frontage;

~~Broad Street, $8.60 per foot frontage;~~

Government Street, $10.50 per foot frontage;

Yates Street, $10.50 per foot frontage;

Fort Street, $11.50 per foot frontage;

divided into ten equal annual payments of interest and sinking fund.

The report of the City Engineer and City Assessor in connection with such proposed improvement and the assessment therefor upon particular lots is open for the inspection of any person at the office of the Assessor, City Hall.

Unless a Petition against such assessment by the owners of the real property, (fronting upon the streets or portions thereof proposed to be so improved), representing at least one half in value thereof, be sent to the said Council within fifteen days after publication of this notice such proposed improvement will be made as aforesaid.

By order,

WELLINGTON J. DOWLER, C. M. C.

Victoria, B. C., 21st August, 1895.

NOTICE.

Blanchard Street, between Pandora and Chatham Streets, will be closed till further order.

E. A. WILMOT, City Engineer.

Land Registry Act.

Lot 3, Block XVI; lot 25, block XVIII; lot 12, block XIX; lots 12 and 39, block XX; lot 17, block XXX; lots 29 and 38, block XXXI; lot 26, block XXXIV lot 1, block XXXV; lot 4, block XXXVII; lots 2 and 20, block XXXIX; the easterly 2-3 of lot 21, block XL; lot 13, block XLVIII; lot 2, block L; lot 7, block LI; part of district lot 185, in the city of Vancouver.

A certificate of indefeasible title to the above lots will be issued to James Charles Prevost, guardian of the estate of Ernest Wilfred Pratt, otherwise known as Ernest Pratt, on the 28th day of September, 1895, unless in the meantime a valid objection thereto be made to me in writing by some person claiming the estate or interest therein or any part thereof.

T. O TOWNLEY, District Registrar.

Land Registry Office, Vancouver, 24th June, 1895. 3m.

Land Registry Act.

In the Matter of the Application of Peter Steele for a Certificate of Indefeasible Title to the following portions of Sections XXXI and XXXII., Esquimalt District, viz.:

All that piece or parcel of land forming a portion of Section XXXII., Esquimalt District, together known as Lots 20 and 21, according to a survey and plan made by R. Homfray, C. E., and more particularly described as follows: To wit: Commencing at the N. E. corner of said section, thence running westerly along the northern boundary of said section 366 links, thence south 475 links, thence easterly to the eastern boundary of said section, 351 links; thence northward along the said boundary to the point of beginning, 562 links.

Also that piece or parcel of land known as Buckley's Orchard, and forming a portion of Section XXXI. Esquimalt District, more particularly described as follows: To wit: Commencing at a point on the northern boundary of the said section 14 feet six inches distant from the N. E. corner of before mentioned Section XXXII., thence running easterly along the said boundary 400 feet, thence southerly and parallel to the eastern boundary of the first above described piece of land 325 feet, thence at right angles west 250 feet, thence north to the point of beginning, 198 feet.

Also all that piece or parcel of land forming another portion of Section XXXI., Esquimalt District, bounded as follows, viz.: On the west by the last described piece of land known as Buckley's Orchard, on the south by a line drawn from the south easterly corner of said last described piece to the Cross Craigflower road and parallel to the northern boundary of the said Section XXXI., to the eastward by the Craigflower road, and to the northward by the northern boundary of said Section XXXI.

NOTICE is hereby given that a certificate of indefeasible title to the above lands will be issued to Peter Steele on the 30th day of September, 1895, unless in the meantime a valid objection thereto be made to me in writing by a person claiming an estate or interest therein or any part thereof.

S. Y. WOOTTON, Deputy Registrar-General.

Land Registry Office, Victoria, June 24, 1895.

DOCTORS OF THE DOMINION

Want Enrollment on the British Register—A Mysterious Discovery.

Kingston, Aug. 29.—At to-day's session of the Canadian Medical Association it was recommended that a uniform standard of matriculation, education and examination for the whole Dominion be established in order that medical practitioners in Canada be placed on the British register, and the secretary was instructed to co-operate with the secretaries of the various provincial associations in the matter.

Napanee Mills, Aug. 29.—While a gang of men were digging for terra cotta clay on Wednesday they discovered under a foot of earth, the skeleton of a man, or woman, with a knife sticking in the breast. The knife is dagger-shaped, fourteen inches long and much eaten by rust. The skeleton and knife were placed away, but disappeared during Wednesday night.

Toronto, Aug. 29.—The Attorney-General's department has been asked to investigate another supposed insurance fraud. Mrs Alger died at Whitevale, Aug. 15. She was insured for $7,000 in the Equitable Life, on a policy taken in December last. There was no suspicion of foul play in connection with the death, but early in July another policy in the Home Life, of Toronto, was applied for, and the same physician who passed the first application passed this. While the policy was awaiting acceptance at the head office, the woman died. Upon investigation, it was found she had died from an acute form of consumption. An investigation is asked to ascertain if there was a deliberate conspiracy to defraud.

The Globe announces that it will publish a series of letters on the Manitoba school question by Principal Grant, who has been in Manitoba for the past week, making a thorough study of the subject and acquainting himself with all sides of the case.

THE CUBAN INSURRECTION.

The Insurgents Active and Acting in Conjunction with Outside Parties.

Havana, Aug. 29.—The news received that 300 insurgents had aken Fomento and Puerto Principe is officially declared to be untrue. Sanchez is said to be wandering in the mountains about Trinidad and Roloff to be near San Ambrosia, while Suarez and Zias are six miles from Fomento.

New York, Aug. 29.—The Atlas line steamer Adirondack, from Port Limon, brings news of another landing of supplies in the vicinity of Cape Maysi, Cuba, on the 22nd inst. When the steamer was about 30 miles west of the cape a large, white-painted sloop was seen bearing directly for the Cuban coast. There was great activity among the men on board, and what looked like kegs of powder and firearms were stacked up in the steerage of the vessel. The name of the craft could not be ascertained, but it was evident that she was carrying materials of war to the insurgent forces on the island. The officers of the Adirondack watched the sloop until she lowered her sail and dropped anchor off the shore. No Spanish man of war was in the vicinity. The place where the sloop landed in a thinly inhabited spot. It is believed that several vessels have landed supplies there for the insurgents within the last three or four weeks.

London, Aug. 29.—The Havana correspondent of the Times telegraphs that Marshal Campos had recently decided to fix his headquarters in Santa Clara. He continues to organize defensive measures against the rebels, and is building small forts at various points and keeping strong patrols constantly moving throughout the country. Letters received from Santiago bring rumors of dissension among the insurgent chiefs, several of them objecting to the present method of conducting the rebellion and opposing the policy of destroying property. There is also jealousy between the white and colored leaders.

The insurgents continue to levy contributions against damage, amounting to $40,000 in one case and $20,000 in another. They have received orders from the revolutionary committee in New York to prohibit all work on plantations. The penalty for refusing to comply with this prohibition is to destroy property and burn sugar cane.

JUROR HARD TO GET.

Taking of Testimony in the Durrant Case To Be Begun in a Week.

San Francisco, Aug. 29.—All the parties in the Durrant case expect that by the middle of next week the taking of testimony will be well under way. The opposing attorneys promise that no time will be lost as soon as the preliminaries are cleared away. It is said that each side will try to impeach the testimony of the opposing witnesses, and some unpleasant developments are expected.

The police have another witness in the person of Alexander Zenger, a member of Emanuel church, where the double murder was committed. Zenger will testify, it is said, that he saw Durrant and Minnie Williams together in front of Emanuel church a short time before the murder on the night of April 12.

The plan of having the sheriff select a special venire of 72 citizens was barren of results to-day. The special venire was exhausted, but the twelfth juror was not secured. Two veniremen were accepted by the prosecution, but peremptorily challenged by the defence. Another special venire of 75 was ordered for tomorrow.

The workmen in the shoe factory where Durrant's father is employed struck because the proprietors refused to discharge Durrant and an objectionable foreman. The strike was settled by the discharge of all the strikers and the employment of new workmen.

The jury has been completed and the trial will proceed on Monday.

Now see that your blood is pure. Good health follows the use of Hood's Sarsaparilla, which is the one great blood purifier.

THE PACE THAT KILLS.

Society Young Man, With Nothing to Do, Cuts His Throat.

Binghampton, N. Y., Aug. 30.—Wm. Crich, youngest son of T. G. Crich, a wealthy real estate owner, whose family moves in the first circles of Binghampton society, cut his throat last night with a razor. The young man was found lying in bed, his throat and head horribly gashed. On the walls he had traced in his own blood, "I have nothing; it's better; poor mother." With a pen knife he had cut several words on his thigh, while on his chest he had carved a crown. The young man's parents are at Richfield Springs.

THE TERRITORIES PARLIAMENT.

The Queen's Speech Has a Cheerful, Hopeful Tone About It.

Regina, N. W. T., Aug. 30.—The first session of the third parliament of the Northwest Territories opened at the capital buildings yesterday. As this is the first meeting of the new house since the election last year, greater interest than usual is taken in the proceedings. At the opening Lieut.-Governor Mackintosh delivered the speech from the throne, rejoicing in the prospective harvest and the progress made by the Northwest Territories. The increase in the number of schools was remarked upon as a source of satisfaction. They now had 330 public schools, two Protestant and ten Catholic separate schools. The census showed a marked increase of population, and development of the country's resources was evident. Mr. J. F. Betts, of Prince Albert, was elected Speaker of the new house.

A MOTHER'S MISFORTUNE.

Loses in One Day Four Children—One Drowned and Three Poisoned.

Sullivan, Mo., Aug. 30.—Yesterday evening three children of a widow named Jenkins, while at play, went near the barn to gather eggs. The place was rather out of the way and moreover was dangerous owing to the prevalence of snakes, which are numerous in that region. One child thrust its hand into what it supposed was a hen's nest and quickly withdrew it, exclaiming that the hen had picked its hand. The other two children put in their hands with a like result, and then set up a loud cry. The mother was at the well with her baby, and the alarm so excited her that she left the baby and ran to the assistance of the children, who it seems had been bitten by a rattlesnake. During the excitement the baby fell into the well and was drowned, and the three other children also died.

NEWS OF THE SEALERS.

Steamer Bertha Reaches San Francisco From Unalaska—Seals Are Scarce.

San Francisco, Aug. 30.—Steamer Bertha, Captain Hayes, arrived in this port last night from Unalaska and Behring Sea. She brought with her one of the most valuable cargoes that has ever come into this harbor. It is composed of sealskins, furs, whalebone and gold dust, and it is estimated worth between $750,000 and $1,000,000. Her passengers report an almost utter failure among the whaling fleet. Captain Hayes says all the sealers who went into Behring Sea fared poorly, but he brings news that 44 vessels cleared from Unalaska for Behring Sea, nearly every one of them carrying a sealing flag. It seems that the captains were warned by revenue cutters at Unalaska that they would be seized if they went into the sea without a flag. The captains took the hint. Seals in the vicinity of the Pribyloff islands, it was learned, are fast disappearing, and they are even more scarce outside the prohibited zone.

American News.

Spokane, Wash., Aug. 30.—Jas. Stewart, better known as Paul Webb, died here last night from injuries sustained on July 4th last in sliding down a 1500 foot log chute in a barrel. The barrel struck an obstruction while going at a tremendous speed, causing it to jump the chute, landing on the rocks a hundred feet below. Stewart's back was broken in the fall.

New York, Aug. 29.—Twelve of the largest silverware manufacturers in the country met to-day, representing millions of dollars in the aggregate annual production of silver, and increased the price of sterling silverware 10 cents an ounce, the advance to go into effect at once.

Washington, D. C. Aug. 29.—As a result of the recommendations of the Chicago drainage canal board, the engineer corps will make observations and take measurements so as to determine the probable effect of the proposed canal upon the level of the great lakes. No further steps can be taken until this is accomplished and it is announced that the observations will be started as soon as possible.

VICTORIA MARKETS.

Retail Quotations for Farmers' Produce Carefully Corrected.

Victoria, Aug. 30.

Eighteen hundred and ninety-five is going to prove a banner year for the cattlemen of British Columbia. At the present time anything that can be called beef can be sold and at very good prices. The cause is to be found in a good, steady local demand in the coast cities and an immensely improved demand in the Kootenays. All the year the Messrs. Ellis, Causten and others have been driving hundreds of cattle into those districts to be slaughtered to meet the enormous demands of mining camps and contract works. "It is a great year for the cattle owner," said a prominent butcher to-day, "but there is one drawback. A year from now, considering the cattle on the ranges and the number that will be sold in the interim, they will be unable to meet the demand and we will have to go elsewhere. It is a good thing right now, however, and they are getting excellent prices." There are no local changes. The market is very well supplied with superior meat and trade is good.

The hop market at Seattle is very flat, according to the local papers. Dealers are only offering 2 1-2c per pound for old stock. No transactions have been reported here.

Plums are not coming so readily as they were, and the grades on sale at the stores are a little better. Prices in consequence are stiffening up a little. Some big shipments have been made from the Fraser valley to Winnipeg, and it would be well for the Island growers to look into the subject. They can certainly do better anywhere than sacrificing them on the Victoria market or wasting them. Apples or crab apples are doing very well. Receipts of fruit from the Mainland have been fair and of excellent quality.

Oats since the new crop have been coming in are quoted lower. Potatoes show no change. Puget Sound prices for potatoes are away below those maintained here. The merry war in flours keeps up to the joy of all good housewives. Butter and eggs are not changed any.

Those who claim to speak with knowledge say that trade throughout the province is improving, and that the improvement is real, for it has left its record upon order books and collection returns. The improvement is but slight, but still it is in the right direction and is hailed with joy.

Retail prices on staples are as follows:

When the Nerve Centres Need Nutrition.

A Wonderful Recovery, Illustrating the Quick Response of a Depleted Nerve System to a Treatment Which Replenishes Exhausted Nerve Forces.

MR. FRANK BAUER, BERLIN, ONT.

Perhaps you know him? In Waterloo he is known as one of the most popular and successful business men of that enterprising town. As managing executor of the Kuntz estate, he is at the head of a vast business, representing an investment of many thousands of dollars, and known to many people throughout the Province. Solid financially, Mr. Frank Bauer also has the good fortune of enjoying solid good health, and if appearances indicate anything, it is safe to predict that there's a full half century of active life still ahead for him. But it's only a few months since, while nursed as an invalid at the Mt. Clemens sanitary resort, when his friends in Waterloo were dismayed with a report that he was at the point of death.

"There's no telling where I would have been had I kept on the old treatment," said Mr. Bauer, with a merry laugh, the other day, while recounting his experiences as a very sick man. "Mt. Clemens," he continued, "was the last resort in my case. For months previous I had been suffering indescribable tortures. I began with a loss of appetite and sleepless nights. Then, as the trouble kept growing, I was getting weaker, and began losing flesh and strength rapidly. My stomach refused to retain food of any kind. During all this time I was under medical treatment, and took everything prescribed, but without relief. Just about when my condition seemed most hopeless, I heard of a wonderful cure effected in a case somewhat similar to mine, by the Great South American Nervine Tonic, and I finally tried that. On the first day of its use I began to feel that it was doing what no other medicine had done. The first dose relieved the distress completely. Before night I actually felt hungry and ate with an appetite such as I had not known for months. I began to pick up in strength with surprising rapidity, slept well nights, and before I knew it I was eating three square meals regularly every day, with as much relish as ever. I have no hesitation whatever in saying that the South American Nervine Tonic cured me when all other remedies failed. I have recovered my old weight—over 200 pounds—and never felt better in my life."

Mr. Frank Bauer's experience is that of all others who have used the South American Nervine Tonic. Its instantaneous action in relieving distress and pain is due to the direct effect of this great remedy upon the nerve centres, whose fagged vitality is energized instantly by the very first dose. It is a great, a wondrous cure for all nervous diseases, as well as indigestion and dyspepsia. It goes to the real source of trouble direct, and the sick always feel its marvellous sustaining and restorative power at once, on the very first day of its use.

The Daily Times.

ALBERNI.

The Times gives to-day a description of the Alberni gold field from its travelling correspondent, whose letter will furnish our readers with more detailed information than has before been published. The facts which Mr. Ross has gathered from his personal inspection of the field, and which he records in his letter, show conclusively that there is great promise in this new though near-by gold region. There has been of late indeed but little doubt on that point, though for a considerable time the Alberni reports were not received by the public with a great degree of confidence. There is no need to dwell at length on the importance of this gold field to Victoria. Not only those who secure interests in the mines but the city in general will be benefitted by the development of the district. Business men already know that the Alberni trade is of benefit to them, and are feeling pleased over the prospect of its enlargement in the near future. There are other parts of the Island that are likely to undergo similar development within the next few years. To one part of our correspondent's letter particular attention may well be directed, namely the failure of the government to aid as it should in the work of developing Alberni. The provincial revenue has already benefitted from the opening up of the mines, and it is safe to say that it would benefit still more if roads and trails were provided on a more generous scale. Instead of fostering this potential source of income the government seems to be systematically starving it. That is neither a just nor a sensible way of proceeding, though it is only too much in line with the government's manner of conducting the whole public business. There is, in this province, sad need of an administration that would look after provincial affairs in a businesslike way.

TUPPERIAN PROPHECY.

Reports concerning the great grain crop of Manitoba and the Northwest have led the Halifax Recorder into a rather cruel resurrection of Sir Charles Tupper the elder's famous prophecy. Our far eastern contemporary says: "The wheat crop alone is estimated at 29,000,000 bushels, which is a very great advance on any previous record. For the first time that we can remember, the Tory press have failed so far to give the government credit for this fine crop. Their modesty is to be commended, and in the absence of any claim on behalf of the government we suppose that the people will be permitted to thank God for causing the crop to grow. While the yield is prolific and satisfactory, it must not be forgotten that it falls very far short of that promised by Sir Charles Tupper, when he was inducing parliament to grant $30,000,000 extra to the Canadian Pacific railway company—that is, $30,000,000 in addition to the original subsidy, which was, in all conscience, liberal enough. Sir Charles said, with all the assurance of a practised operator in mendacity, that by the year 1891 Manitoba would have half a million population, and that it would raise 640,000,000 bushels of wheat. It is four years beyond the date fixed by Sir Charles for this stupendous crop, and we are still the trifling matter of 611,000,000 bushels behind his calculation, but considering Tuppersims in general there is not much cause for complaint. The proportion of 29 to 640 is a little more than the average fulfilment of a Tupperian prophecy—not unfrequently there is nothing at all." It is hardly fair to Sir Charles to compare his prediction and the actual results without explaining that he did not at the time believe his own prediction. That was, in fact, one of the most artistic of his "great stretches."

—Last evening J. E. Phillips was presented with a beautiful gold-headed cane made of wood from the old steamer Beaver, by the officers and members of Dominion lodge, No. 4, I. O. O. F., in recognition of valuable services rendered. Mr. Phillips was the first representative from that lodge to the sovereign grand lodge, which meets at Atlantic City on the 16th of September. The presentation was made by N. G. Kay in a very feeling manner, and many cordial greetings followed.

—Another large audience was present at "Sequah's" lecture in the A. O. U. W. hall last evening. Wallace Bridle opened with a recital, which was much appreciated, after which "Sequah" delivered a very interesting lecture upon the treatment of chronic diseases. A young Dane, who has been a great sufferer from rheumatism was treated by "Sequah" with great success.

ALBERNI GOLD FIELDS.

The New and Promising District Inspected by the Times' Correspondent.

Plenty of Gold Ore of Good Quality —The Need of Roads and Trails Felt.

Alberni, Aug. 28.—If the enthusiasm of prospectors is any criterion of the wealth of the alluvial deposits in this district, if we consider the large area in which gold has been found, and then consider the standing and experience of the capitalists who have been interested in mining claims here, we must come to the conclusion that Alberni will in the not distant future occupy an important place among the gold producing sections of this province. The majority of prospectors are working in China creek and its tributaries, but Granite and Coleman creeks have also been prospected with encouraging results.

China creek empties into the Alberni canal about six miles north of the town. It rises in the mountains about 3500 feet above the sea level and is eighteen miles in length. As early as twenty-five years ago, Professor Phillips, a mining expert from San Francisco, mentioned in a report that he here found gold in paying quantities. A few years later Gouge, from Victoria, mined at the head of China creek, in the vicinity of the present Golden Eagle claim, but owing to difficulties encountered from want of trails, and other reasons, his labors proved unprofitable. In the last decade Archie McLaughlin, an experienced miner, thoroughly prospected the creek and reported very favorably, but not having the necessary means to carry on active mining operations he started hunting and trapping, endeavoring to thus secure sufficient means to carry on the work. While on one of these hunting expeditions he died and his body now rests beneath a cedar tree near Ash lake. Chinamen have during the last ten years washed gold out of China creek. They used rockers and a few sluices. It is estimated that they washed from $30,000 to $40,000 inside of five years. This success on the part of Chinamen attracted the attention of white men. They endeavored to locate the ledges from which the gold was washed down by the waters of the creek. The first to locate a claim on China creek was Frank McQuillan, who started on the Cataract, an hydraulic claim now owned by Messrs. Eberts & Taylor, Bainbridge, Aspland, Childs and Surman. Engineer P. Summerfield is at present taking levels for a flume for hydraulic purposes. Mr. Bainbridge has charge of a large force of men who are building a dam. The work is being pushed as rapidly as possible to have it completed before the creek rises. The benches along the creek are giving every indication of pay gravel. There are two other hydraulic claims below this on China creek, one owned by Eberts & Taylor, known by the unpronounceable name of Pahtl-Pahtlicant, an Indian term meaning "bright on top," the other being the Prince of Wales, owned by Messrs. Childs and McQuillan. No work is being done on these claims.

One of the most promising claims on China creek is the Duke of York, situated about five miles from the mouth, where 240 acres have been secured from the E. & N. R. R. Co. and a mining lease from the government for a period of five years, with the option of a renewal. This claim has been thoroughly prospected with very encouraging results, pay gravel having been found in all parts of the ground, and averaging forty cents to the cubic yard. Two of the shareholders are at present on the ground, and superintending work, namely, Messrs. McQuillan and Childs. Associated with them are Messrs. Kirk, of Turner Beeton & Co., and Galletly, of the Bank of Montreal. Their intention is to put in an hydraulic plant that will wash 2000 cubic yards per day. To do this a ditch will be dug one and a half miles in length, having a fall of 150 feet. The work will be put in charge of Mr. Ferguson, a mining engineer of Vancouver, who will arrive on the ground in about two weeks. It will be pushed forward as rapidly as possible. The owners expect to complete it by July next. The estimated cost is from $30,000 to $35,000. China creek has been forced from its original course by the deposits from the mountain sides falling into the river bed and forming benches there, thus compelling the creek to take a different direction. All these benches contain gold, washed down from the ledges above. Your correspondent washed several pans of gravel taken from different places in these benches, and although he had no former experience in washing for gold, as high as forty colors to the pan was secured.

Here it might be stated that mining men believe that the main leads are yet to be discovered, because the gold found in the creek is coarser than and different from the gold in the ledges already discovered. This fact is an incentive to prospectors, and the mountain sides along the headwaters of China creek and its tributaries, Mineral and McQuillan's creeks are being prospected for the ledges that produced the coarse gold already mentioned.

Above the Duke of York is the Little Bucker, a hydraulic claim owned by Garrard of Nanaimo. The Nanaimo-Alberni Gold Mining Company are working the adjacent claim, the Constance. This Company is composed of Nanaimo capitalists, Andrew Haslam, M. P., being president and W. K. Leighton secretary-treasurer.

W. H. London and John P. Bowditch, both from Lulu Island own the Lulu Island Hydraulic claim, at the confluence of China and Mineral creeks. They have secured a lease for one mile along China creek from the provincial government. Early this spring, Mr. London, who is on the ground, made a cut across China creek, his intention being to sluice with waters from Mineral Creek, but owing to the drying up of Mineral creek the scheme was temporarily abandoned. He is at present sluicing along the banks of China creek and is well satisfied with the results. During the visit of your correspondent, Mr. London stripped the moss from the rocks in the river and washing a pan of this he secured almost a dollar's worth of coarse gold. Messrs. London and Bowditch will also put in a hydraulic plant, bringing the water from McQuillan's Falls, a distance of two miles, thereby securing pressure of 300 feet. There are several placer claims above the Lulu Island held by Victoria capitalists.

At the head of China Creek are mineral claims of a very promising nature. The Golden Eagle was discovered by Archie McLaughlin and is now held by Henry Saunders of Victoria. It was bonded at one time to the Duke of Montrose, who spent fully $5,000 in development, but owing to the work being placed in the hands of incompetent men nothing was accomplished. Montrose became discouraged and abandoned the mine. Specimens have assayed as high as $680 to the ton; and there being a large quantity of quartz, it will yet prove valuable.

The King Solomon was discovered by McQuillan. It is situated at the head of McQuillan creek, a small stream running into China creek at its source. It has assayed $50 to the ton. Considerable money has been spent on this claim with encouraging results.

A drawback to the developing of these and other claims is the want of trails. Prospectors have spent considerable money in making trails with as yet very little assistance from the government. During the last few years the government has secured considerable money from the miners of Alberni and they justly expect some return in the expenditure of money for trails to enable them to develop their properties.

Robert Debeaux did considerable development work on a claim on Mineral creek, but failing to record it, it was included in the lease granted to Messrs. London & Bowditch. Mr. Debeaux yet claims possession, and the matter will likely be settled in court. He has built a large two story house and being an excellent cook, travellers can secure good accommodations with him.

Just above is another placer claim owned and worked by Messrs. Gleason & Young. They are at present sinking a shaft and have it down a distance of 30 feet, and expect shortly to strike pay gravel. Mr. Gleason is an experienced miner, and has worked in mines in Colorado and Nevada. He is well pleased with his claim on Mineral creek.

By climbing the mountain side to a distance of 3,500 feet above the sea level, one reaches the quartz claims on Mineral creek. They are all of a similar nature and have assayed from $4 to 1,000 per ton. Four claims, namely the Alberni, Chicago, Victoria and Warspite, are at present held and worked by the Mineral Creek Gold Mining Company, the principal shareholder being Police Magistrate H. A. Simpson of Nanaimo. Henry Saunders, E. J. Saunders, of Victoria, Mrs. Catharine Greenwood, and B. H. John, of the Lands and Works department, recorded these claims. They will use the courts to recover possession. The Mineral Creek Gold Mining Company is at present shipping ore to Tacoma from the Alberni. The Quartz is very rich, having assayed as high as $1,000. Should the Mineral Creek Company win the case, they intend to bring in a stamp mill. The quartz being free milling, this venture will in all probability prove successful.

The Missing Link claim, recently located by Mike Comerford, lies above the Alberni and gives promise of being very rich. The assays from this claim run from $200 to $500. Mr. G. Brown, formerly of Victoria, has secured an interest in this claim. He is also interested in several other claims on Mineral Creek, the Champion, on which he is now working, being the most important, having assayed as high as $800. J. W. Jones has done considerable work on the Ace of Spades on the McLaughlin range, one mile west of Alberni. It assays from $7 to $27. Gold Commissioner Thomas Fletcher, ex-M.P.P., owns the Dulce Domun, George Heath, of Alberni the Chedda Valley, and George Smith the Lily. Besides these are several other claims staked off on Mineral creek; in fact the enthusiasm of speculators has retarded the progress of the prospectors. Claims have been secured in the interests of outside parties who are holding them with the intention of selling, thus limiting the area in which the prospectors can work. The pack train to the mines is in charge of James Pinkerton. The trail is very steep, going right up the mountain, but Mr. Pinkerton has been able to keep the mines well supplied and has taken out all the ore that has been offered.

Several claims have also been taken up on Granite creek, which empties into Alberni canal about nine miles from Alberni. M. A. Ward, of the Arlington hotel, and Wm. Poole are interested in the Star of the West and the Starlight. The Hon. D. W. Higgins and Captain Clive Phillips Wooley have bought interests in both these claims, and intend doing considerable work on them in the fall. The Starlight should prove a valuable property, as there is a seven foot ledge and gold can be seen across the face of it with the naked eye. It has assayed as high as $80 to the ton. The Star of the East, owned by M. M. Sarecault, of the Alberni Hotel, and the Nevada, owned by George Brown, are also on Granite creek.

Considerable excitement has been caused by the finding of quartz of peculiar formation on Coleman creek, 10 miles from Alberni. The assays from this quartz run from $4 to $500. There is an unlimited quantity of it showing on the entire face of the mountain, and even should the assay prove small, the quartz is so easily worked that it should prove very profitable. Messrs. McAllister, Walter Saul and G. A. Huff are interested in claims on this creek. Gold ore has also been found at Sproat lake that has assayed $30 to the ton. From this it can be seen that the assays show the gold to be in paying quantities, and having been found as far down as the Nitnat, there is a field that should satisfy the wishes of the most enthusiastic gold seekers.

I must not close without drawing attention to the assistance rendered to prospectors by F. P. Saunders, who for a long time gratuitously assayed their findings, thus enabling them to know the value of their discoveries without a waste of time and money. The Dunsmuirs have a stamp mill at Victoria which they will send to Alberni by the Maude. It will be taken into Mineral Creek in sections and set up there. If capitalists could be induced to take an interest in the mines so that they may be developed, if roads were built so that the quartz could be cheaply and conveniently shipped, or if a stamp mill was placed on the ground that the gold could be extracted there, then without a doubt the mines would not only prove profitable to the owners but would be found of such extent that they will affect considerably the prosperity of the entire province.

D. ROSS,
Times Travelling Correspondent.

H. Cuthbert & Co.
AUCTIONEERS.
Are instructed by a gentleman giving up housekeeping to remove to their Salerooms, and to sell by Auction on
TUESDAY, September 3, at 2 p.m.
The whole of his
Superior Furniture and Effects.
comprising very fine parlor set in walnut frame and upholstered in plush, capital bed-lounge, elegant oak occasional tables, oak rockers upholstered, small cabinet, fine standard and hanging lamps, capital receiving chair, very fine AMERICAN ORGAN, 2 sets of reeds, knee swells and rich full tone, two pairs chenille curtains, hall lamp, polished oak hall hat and umbrella stand, stair carpet, smokers' companion, oak extension table, 6 oak dining chairs, marble timepiece, large wicker rockers, Home sewing machine, (new), dinner service, walnut reception chair, upholstered in maroon plush, solid walnut bed set with carved decorations, Brussels and tapestry carpets, oak bedroom set with cheval glass, ash bed sets, single and double bedsteads, wardrobes, fine toilet services, box, wire and top mattresses, easy chairs, feather pillows, "Favorite" cook stove in fine condition, household treasure table, kitchen tables and chairs, linoleum, etc., also capital buggy, set of single harness, donkey cart and harness, to be offered at beginning of sale.
Parties furnishing are particularly invited to attend this sale, most of the goods have only been in use a few months.
Terms cash.

PERSONAL.

W. J. Hanna returned last evening from Vancouver.

D. J. Munn, of New Westminster, is at the Driard.

Campbell Sweeney, of the Bank of Montreal, is in the city.

Luke Pither and wife returned from the mainland last evening.

B. Williams and A. St. G. Flint returned from the mainland last evening.

Trevelyan Sharpe and wife have left for Portland, where they will reside in future.

George F. Ormsby, vice-president and attorney of the Temperance Reform society, is visiting British Columbia.

Mrs. George Beckingham and daughter, who have been visiting friends in Victoria, returned to Seattle this morning.

J. J. B. Gordon, of Bradstreet's, and F. C. Davidge, of the O., R. & N. Steamship company, returned from the sound this morning.

The Rev. D. MacRae and Mrs. MacRae returned home by the steamer Rithet last evening from a trip to the mainland and Mayne Island.

A. J. Lawrence, of the Wells & Richardson Co., the well known importers of Celery Compound, is in the city on a business tour.

Samuel Harrison, manager for Charles Frohman's "Too Much Johnson" company, is at the Driard. The company will be here on September 7th.

Mrs. S. Perry Mills leaves with her son Leonard for the Eastern States this evening. She will return through Canada via the C. P. R., leaving her son at college in Ottawa.

PASSENGERS.

Per steamer Rosalie from the Sound—Miss Johnson, Thomas Palmer and Mrs Palmer, T R Benton, M Lunberg, John Smith, J. B Gordon, F C Davidge, John Donoho, F Smith, W Evans, Jorson Benson, Wm Chillman, T Christianson, Robt Hence.

Per steamer Schome from the Sound—Miss Clancey, W Smart, Mrs Miller, S Harrison, Jas Beggs, Mrs Hinson, Mrs Bridges, G F Ormsby, G Littlewood, Mrs Begg, E Mitchell, G K Burton, Mrs McKilligan, Peter Craig, J Payne and wife, G P Goff, Capt Beck.

Per steamer Charmer from Vancouver—Miss Walsh, W Brown, E H Cain, F S Lord, W Smithson, Mrs Elden, F La Blanche, C Guinness, S Saunders, Luke Pither and wife, W J Hanna, A B Fraser, E E Benn, T Hooper, J H Freeman, C A Steele, W E Drake, J D Hall, S F C Smith and sister, G Holmes, W A Wood, D J Munn, Capt Cates, Miss Scott, J W Ritter, W Edwards and wife, Wm Hogg, Phil Robertson, A S Mowat, C Sweeney, A St Geo Flint, E S Wilkinson, B Williams, A St George Flint, E S Wilkinson, B Williams.

CONSIGNEES.

Per steamer Rosalie from the Sound—James Mitchell, J Horner & Co, Colonist P Co, B O Brown & Co, J Maynard, E Marnard, F McQuade & Co, Hudson's Bay Co, J K Dorsin, R Jameson, Crescent Pharmacy, G A Richardson.

Per steamer Charmer from Vancouver—W Jackson, Turner Beeton & Co, F McQuade & Son, W G Cameron, Hall & Ross, Brackman & Ker Milling Co, E H Jackson & Co, J Johnston, T J Trapp & Co, J E Wadsell, Hudson Bay Co, Moore & Co, H Wain, W R Chambers, L & Co, Miss Winnie Hoffee, F.

100 Government street, next door to Hall & Goepel's office.

LOCAL NEWS.

Gleanings of City and Provincial News in a Condensed Form.

—The fall assizes at Nelson will, according to a notice in the Gazette, open on Wednesday, October 2.

—The members of Uniform Rank, K. of P., will give a social dance at Castle Hall on Wednesday evening next.

—There will be an examination during September in assaying under the authority of the provincial government.

—It is intended that the United States war ship Philadelphia shall make a northern trip, in which event she will visit Puget Sound points and probably Victoria.

—There will be a great display of fruit this year at the show. This department is under the charge of the Fruit Growers' Association, who assort, classify and judge the exhibits.

—Mr. Spice, organist, late of Vancouver, is now organist of Centennial Methodist church. He was introduced to the congregation at the social at the home of Noah Shakespeare on Wednesday evening.

—The Elks of Tacoma, Seattle and Port Townsend will have an excursion to Port Angeles on Labor day and an endeavor will be made to get one up from here. It is proposed to arrange a lacrosse match for the benefit of the visitors.

—The Sir William Wallace Society will this evenidg tender a reception to Their Excellencies the Governor-General and Countess of Aberdeen. The committee has arranged an attractive programme and it is expected that the evening will prove an enjoyable one.

—The inspection of the headquarter companies of the B. C. B. G. A. will be made the last week in October. The battalion will be put through infantry drill on Saturday, October 26, and the individual companies will have gun drill on the 28th, 29th and 30th, one each night in the order of their numbers.

—The provincial government has been asked to name ten delegates to the Farmers' National Congress which meets at Atlanta, Ga., from October 10 to 16 inclusive. There will be delegates there from all over the Dominion, the United States, Mexico, Central America and South America, to the number of about 2000, and the discussion of agricultural interests will be upon the widest lines. The government will ask the agricultural association to nominate delegates to the convention.

—The Northern Pacific liner Tacoma is due here on Tuesday, September 3, the same day as the Empress of China. She has about all the freight aboard that could be comfortably stored, and three hundred tons of it will be unloaded at Victoria. She also has 15 Chinese passengers for Victoria. The steamship Evandale, of the same line, arrived at Yokohama from Victoria on Monday last. Agent McRae is spending a few days at Tacoma on business. He returns to-day or to-morrow.

—There was a very good attendance at the social and business meeting of the W. C. T. U. at the home of Mrs. Gordon Grant, Saanich road, yesterday afternoon. Mrs. Jenkins gave a detailed report of all the work accomplished by the organization in the past year, and outlined what it was proposed to do during the coming year. After a discussion it was decided to leave the arrangements for the union fair booth in the hands of Mrs. Goodacre and Mrs. Jenkins. The superintendents of the different departments were named and arrangements made for the annual meeting on September 25. Mrs. Dempster invited all present to her home for a similar gathering on September 20th.

—The Gazette notes the incorporation of a number of mining companies. The Nanaimo-Alberni Gold Mining Company has been incorporated by Andrew Haslam, W. K. Leighton and William E. Norris. The capital stock is $300,000 and the object is to prosecute mining in Alberni district. They will take over the Jones and Heyland leases on China creek. The Prospecting Syndicate of British Columbia has ben incorporated with a capital stock of $50,000 by Edward Mahon, Joseph W. McFarland, and Gilbert Mahon of Vancouver. They are empowered to mine anywhere in the province. The Spokane Ore Company, capital $5,000,000, and St. Elmo Mining Co., of Spokane, capital, $1,000,000, both foreign, have been registered as such to do business in the province.

—Savannah has taken a number of negatives of the Governor-General and Countess Aberdeen.

—The tug Tepic arrived this morning from Vancouver with 1000 barrels of cement for the new postoffice.

—The steamer Walla Walla is due from San Francisco tonight and the City of Puebla goes south to-morrow evening.

—The proclamation of Mayor Teague declaring Labor day a civic holiday was issued this morning and is published in the Times this evening.

—H. M. S. Nymphe is coming around to the outer wharf this evening and will to-morrow commence the survey of the outer harbor referred to a few days ago.

—Since the American steam yacht Eleanor was hauled out on the marine railway yesterday afternoon she has been visited by a large number of people who greatly admire the graceful lines of her model.

—Rear-Admiral Stephenson, C. B., last evening entertained about three hundred invited guests at a grand ball given in the sail loft at the dockyard. Among the distinguished guests were His Excellency the Governor-General and Lady Aberdeen and the Lieutenant-Governor and Mrs. Dewdney. The ball room was beautifully decorated.

—Samuel Sea, jr., announces that he will open in a few days at Henry Waller's old stand, Douglas street, with an entirely new stock of the latest—the very latest—in gents furnishings. The very newest and nobbiest European and American novelties in hats and neck-wear will be on view and should be inspected by every good dresser in the city. Wait for the opening.

—Hamilton Abbott, son of Supt. Abbott of the C. P. R. has been made assistant agent for the road at Victoria under George L. Courtney and will be here to enter on his duties on September 1. He has been engaged at the Vancouver office for some time and is a popular and efficient official. Charles Milliard, who has been temporarily filling the place, returns to Vancouver on Tuesday.

—W. G. Barber, a young hotel man who has let liquor get the better of him, was arraigned in police court this morning on the old charge. He expressed his regret at his position and told Magistrate Macrae, if given the chance that he would leave the city for some other place, there to begin anew. The magistrate bound him over to appear on Wednesday next in the sum of $20, the idea being to give him ample time to leave the city.

—The funeral of the late Rupert Charles Fernyhough took place to-day at 2:30 p.m. from his late residence, 173 Pandora avenue, and later from Christ Church cathedral, where Rev. Canon Beanlands and Rev. Barber officiated. Many beautiful floral emblems were contributed by sympathizing friends. The pallbearers were Messrs. A. Smith, W. Merrifield, M. Brinkman, E. Wilson, A. Lucas and S. Cates.

—The trip of the Warrimoo from Sydney to Victoria in September has been cancelled as she is to go into dock at Sydney for extensive repairs that will require fully a month to complete. An effort is being made to charter one of the steamers of the Shaw, Saville & Albion Co., to which the Arawa belongs. The Warrimoo's sailing date from Sydney was Sept. 16, and it is believed that the new steamship will be engaged and get away by Sept. 20.

—The old wooden awning in front of the Belmont Block on Government street below Yates collapsed this morning and part of it broke away and fell to the street. An old Indian woman who was under it at the time got a bad scare. A couple of carpenters were quickly put to work and the awning taken down. It seemed ready to fall at any moment and passers by gave it a very wide berth. It was old and had rotted until it lacked strength enough to hold itself up.

—The annual harvest festival conducted by the Salvation Army will take place on Saturday evening and donations to it are now being solicited by members of the Victoria corps. The scheme was inaugurated in 1892 by Commandant H. H. Booth, whose aim was to relieve poor corps and officers of debt, and it has been a great success. Gifts of articles of almost every description will be most welcome. The sale of the goods will take place on Monday night and the proceeds will be forwarded to Toronto at once.

—Entries are now being received for the next club races of the Y. M. C. A. rowing club, to be held on Victoria Arm, on Saturday, the 14th of September, and a strong effort will be made to make this regatta a success. Silver medals will be given to winners in double sculls, and list of other prizes will be given later. The following is the list of events: Double sculling races in heats; single sculls; single blade Peterboro canoe race; tandem Peterboro canoe race, open to all members of the association; four-blade Peterboro canoe race; double inrigged pleasure boats with lady coxswains, open to all members of the association; swimming race; duck hunt, open to all comers. It has been decided that members shall have the privilege of selecting their own crews for the next regatta. All entries for the double sculls are to be in by Saturday, the 7th of September. As the fee for the month has been reduced to 50 cents, it is expected that there will be a large increase of members, and the success of the regatta increased correspondingly.

WHEREABOUTS OF PREVOST

He Was a Passenger to Duncan's Station on the Sunday Morning Train.

Agitation for the Complete Reorganization of the Registrar's Office.

It has now been ascertained for a certainty that J. C. Prevost went to Duncan's Station on last Sunday morning's train. Gentlemen who knew him well saw him and were talking to him, but they cannot say just where he left the train, although he was not noticed after passing Duncan's. The inference is that he went up to see his family, who have been spending the summer in the district. He may still be there, although the probability is that he engaged an Indian and was taken across the gulf in a canoe.

There is a feeling that the matter should have been placed in the hands of the police several days before it was. Deputy Sheriff Siddall was looking for Prevost on Friday evening, and although the latter must have been in the city all day Saturday, he could not find him. Had the matter been placed in the hands of the police as soon as the Deputy Sheriff found that his man was missing, it would have been next to impossible for Prevost to escape. He certainly would not have been able to leave town in the open and simple manner that he did. However, if he is still on the island, the police will no doubt have him before many days, although he has more than likely taken advantage of his three day's start to get out of their way.

A reward of $250 has been offered by the provincial police for the arrest of Prevost, the charge being embezzlement. The description of him given is as follows: "Native of England; good looking; age about 53 years; height about 5 feet 8 inches; somewhat corpulent; weight about 178 pounds; florid complexion; blue eyes, rather bloodshot; thick fair hair streaked with grey, inclined to be curly, parted in the middle and usually worn long; light colored side whiskers and moustache, also streaked with grey; wore gold cable coil watch chain with anchor charm attached; tweed clothing and bad felt hat. Disappeared from Victoria 23rd inst."

Auditor Goepel is busy at work on the accounts, but nothing has yet been made public as to their condition.

One of the chief topics of conversation in legal circles is the reorganization of the registrar's office of the Supreme Court. Business, so far as the late registrar was concerned, was practically at a standstill; he worked as and when he pleased, added to which, owing to the non-professional knowledge of the registrar, frequent applications to a judge were necessary to decide small points in practice on examinations and taxation of costs, which rightfully should have been decided by the registrar. This of course rendered litigation just so much more expensive, as all these applications cost money. Consequently the lawyers are going to press now for what they have been agitating for for some time, the appointment to the position of a man with professional training and knowledge.

The state of some accounts in litigation, as already revealed, and which will be more fully shown when the auditor makes his report, has shown what remissness the government have been guilty of in not compelling the registrar to keep a proper set of books and giving him the requisite clerical assistance to keep those books in order. It has been the complaint of the practitioners for years that it was impossible to obtain any information of the condition of any moneys that went into court to form an account, pending the litigation of some claim. Mr. Prevost kept some rough memoranda in books of a kind which no one but himself understood. This will be another reform which will no doubt be made, and it is said, in fact, that the man who is to fill the position of accountant to the Supreme Court has already been fixed upon.

In the other provinces the registrars of the Supreme Courts are duly qualified professional men, qualified to decide points of practice and disputes over taxation of costs, and so save litigants the expense of frequent and wholly unnecessary applications to a judge on trivial points; in addition to which, by a proper system of book-keeping and auditing, it is in a moment possible to arrive at the status of a trust account.

—The shooting season is not quite yet, and it was still further away some days ago. Nevertheless, three members of one of the gun clubs went gunning a few days since and shot something else than clay pigeons, or any other pigeons. A bag of twenty-seven pheasants and grouse was brought into town and these "sportsmen" thought that as the same penalty was attached to stealing a sheep as a lamb, it may be said that all the pheasants in the bag were not of the male sex. Two at least of the party of early shooters are very loud on ordinary occasions in their expressions in favor of a strict game protective law. Aside from this incident altogether, which has been pretty generally talked about, shooting around the district is common and not a day passes that birds prematurely slaughtered, are not brought into town in various and most innocent looking conveyances. Among these birds are numbers of hen pheasants and grouse which have not yet completed raising their second hatches, and the consequence is that the poor little chicks are found all over the country lying dead from cold and starvation. One of the principal grounds of complaint, however, comes from the vicinity of Pike lake, where various parties from the navy have been camping during the summer, and who have been carrying on continuous shooting. Another place complained of is the neighborhood of Macaulay Point wher birds are shot on Sundays particularly.

—The Odd Fellows' hall at Duncan's station, was the scene of a very pleasant gathering on Thursday of last week, when an "At Home" was held for the purpose of organizing a branch of the W. C. T. U. A number of prominent ladies had gathered from McPherson's and Duncan's, Revs. Leakey and Spencer also being present. Mrs. Spofford, president of the British Columbia W. C. T. U., addressed the meeting on the aims and object of the association. The Rev. gentlemen present expressed their willingness to co-operate and assist in any possible way should a union be formed. The young ladies present served afternoon tea, Miss Alexander delighting the company with selections on the guitar. The organization of a union was then proceeded with, the following officers being elected: President, Mrs. C. McDiarmid; Vice-President, Mrs. Holmes; Secretary, Miss Carmichael; Treasurer, Mrs. Whidden. Mrs. Holmes read an excellent paper on education, bringing out many important points relative to true education. Another meeting will be held in two weeks' time, at which superintendents will be appointed and a definite line of work mapped out. The ladies are entering with great spirit into the work, and a career of great usefulness is predicted for the new branch. Rev. Mr. Manuel and Miss Crosier, not being able to attend, sent letters of regret.

—Prof. Prince, the Dominion fisheries commissioner, returned to the city yesterday from Cowichan. He has been making a tour on the steamer Quadra. Many of the places suggested to Prof. Prince as suitable for the cultivation of oysters and lobsters were examined, other observations were made and the professor collected numerous specimens. He visited the Cowichan river to look into the mode of fishing adopted by the Indians, namely, the weir. Fishery Officer Maitland-Dougall, Indian Agent Lomas and Captain Walbran accompanied him. Last evening the professor had a conference with a number of gentlemen interested in angling, and later delivered a lecture before the Natural History Society on fish life.

—Next Tuesday there will be a total eclipse of the moon, which will be visible here if the weather is clear. The different stages of the eclipse will occur as follows, local standard time: Moon enters penumbra, September 3, 6h 48m p.m.; moon enters shadow, Sept. 3, 8h p.m.; total eclipse begins Sept. 3, 9h 06m p.m.; middle of eclipse Sept. 3, 9h 57m p.m; total eclipse ends Sept. 3, 10h 48m p.m.; moon leaves shadow, Sept. 3, 11h 54m p.m.; moon leaves penumbra Sept. 4, 1h 06m a.m.

MT. ANGEL COLLEGE

Located at Mount Angel, forty miles south of Portland, Oregon, in the most picturesque and healthy spot of the Willamette Valley, and conducted by the Benedictine Fathers.

Classical, Scientific, and Commercial Courses, Business Practices and Banking, Music, Drawing, Typewriting, all Languages.

Boys are taken from eight years up, and are being watched carefully, whilst special care is taken for their physical development.

Charges $100 per term of five months.

Apply to REV. DIRECTOR.

Aug. 21-tf-4t.

GOT SOME MEN'S SUITS.

Had 'em long enough. Want to sell 'em. Must sell 'em this month. Will sell you one if you will let us set the Goods by the side of the Prices in your mind's eye.

LIFE IN THE PHILIPPINES.

The Easy-Going Natives and Their Large Families.

The seekers of strange modes of life and the student of the habits of people who have had little contact with civilization and have primitive homes, can be satisfied by a visit to almost any of the larger islands than Luzon in the Philippine archipelago, as for instance, Negros, Palawan, Mindanao and Samas. In any one of these islands can be found tens of thousands of natives who, like generations of their ancestors, have never left their little island homes, and have not the faintest idea that there is any other world beyond their islands. Here the race is mixed and the residents are almost of as light complexions as the residents of Manilla. The young men and women are comely, and a great many of the women between the ages of 16 and 20 are strikingly beautiful. On many islands there live the Bocals, who are supposed to be the aborigines of the archipelago, and to be of Malay origin. They are an interesting race for any anthropologist to study.

Travellers who have trotted about the globe say that the Bocals in the Philippine islands and the Panays in Borneo are about the laziest people that live. They do absolutely nothing that is unnecessary for living and dreaming. They have immense families—often twenty children in a house—and there are a multitude of cases of parents having fifteen and eighteen boys and girls. Every family has its own house, but $5 would build a large and superior bamboo hut, and $1 will make a better domicile than many of the Bocals own. The whole family, no matter how numerous, is crowded into one room at night, the sleepers reclining on heaps of dried banana leaves. Strange to say, the women are a cleanly people. They bathe every day and are expert swimmers. They are proud of their teeth and take great pains to polish them frequently with rude brushes made of the areca tree. The poorer people have no other cooking utensils than an earthen pot, and the aristocrats have a few cast iron pans and big, rough earthen dishes, says a writer in the New York Times.

The substitute for cotton and woolen goods is called mouffla cloth, and is made from the mouffla plant, which is a species of hemp. The fibre of this plant is coarse, stiff and not at all pliable. It is the white inner surface of the long, thin shoots that is used. The natives pull the fibre out, wet the finger and twist the thread, which, as a consequence, is uneven and full of little bunches. Very little mouffla cloth is exported from the islands, as it has an extensive domestic use. It takes an industrious woman several weeks to make a strip of mouffla cloth ten feet long and three feet wide. Flax being almost unknown on the islands the only other material for cloth is silk. The Philippine forests are full of mulberries and silk was woven long before white men came to the islands.

Some of the Philippine silk is as fine as the finest China silk. Much of it is elaborately brocaded, although the process requires an immense amount of time, as the threads which form the pattern have to be tied up each time separately. The nambilla, a square piece of brocaded silk, forms the principal garment of the richer natives on the smaller islands. This is six feet wide by seven feet long, and requires about seventeen months for its manufacture. A Philippine weaver takes her child on her back and weaves for half an hour, then she goes down to the stream and draws a jug of water, or down to the seashore and enjoys a swim in the surf. After weaving a few minutes more she again goes to the brook or to the shore and washes out some single article of clothing, never washing more than one garment at a time, so that during the day she probably puts in about six hours at the loom.

THE INLAYERS OF HANOI.

Skilful Artists at Incrusting Ebony With Mother-of-Pearl.

Hanoi, a city of French Tonquin, has a flourishing industry in the incrustation of precious woods with mother-of-pearl. The industry is so important that a whole street, called the Street of the Inlayers, is given up to it, and constitutes the sole curiosity of the city. Strangers to the art pass hours watching the native workmen. The latter are genuine artists, masters of a delicate handicraft demanding at once artistic perception and high manual skill. Furnished with rude tools, but with much patience and skill, these workmen produce articles of great beauty, gleaming with rainbow hues. Here is a sheaf of many colored flowers; there are delicious arabesques; yonder is a landscape glittering in the sun.

The workmen have applied the principle of the division of labor to their art. There are cabinet makers who put together the different parts of the material to be incrusted. The process of joining is done without the use of nails, and with a system of nice dovetailing and the use of paste, of which lacquer is the base. The wood employed is of two distinct species of palisander, sometimes called violet ebony, and by the natives tiac, and a true ebony from the forest of the Red river of Tonquin. This latter, which the natives call moun, is especially valued by reason of its close grain and its deep black, which brings out the shifting glories of the mother of-pearl. Objects of incrusted ebony are more costly than those of violet ebony.

When the cabinet maker has prepared the wood it passes into the hands of the designer, who makes sketches of the ornamentation upon rice paper. These designs are transferred to the wood by the inlayer, whose duty it is to choose the pearl that will best serve to bring out the beauty of the design. The mother-of-pearl is obtained from a species of large shellfish called casque, chiefly caught upon the shores of the Island of Poulo-Condar. The inlayer cuts the mother-of-pearl into bits four or five centimetres in diameter, and chooses the combination of colors that shall yield the contrasts necessary for the artistic success of his work. His art lies in the skill to arrange the pieces so as to obtain the best effect of irridescence. This he heightens by the use of a sort of pearl dust, furnished by a great mussel taken from the brooks of the region. The play of light upon these mussels gives the whole gamut of the rainbow.

The bits of pearl chosen, the inlayer strives to give them the form of the design and to dispose of them as a veritable mosaic in the wood. The crude morsel is rendered translucent with pumice stone. It is then fixed in a vise, and the inlayer's labor of patience begins. Crouching upon his heels before the vise, he shapes the piece with a file smaller than an ordinary colored crayon. The pearl fashioned, it is necessary to trench the wood to receive it. This is ordinarily done by children 14 or 15 years old. They follow the design with a burin and channel tiny trenches of a millimetre in diameter. The bits of pearl are set in the grooves, and fixed with a lacquer paste, and so fill in interstices. The inlayer then polishes his work, varnishes it, and gives it finishing touches with the burin. The work is so beautiful and so costly that it is much counterfeited by cheaper methods, though never with entire success.—Journal des Voyages.

GEORGE DU MAURIER.

The Great Caricaturist and His Work on Punch.

When, in 1860, Mr. George Louis Palmella Busson du Maurier contributed his first drawing to Punch, he had little suspicion that he would be counted, together with John Leech, John Tenniel and Charles Keene, as one of the four great pillars on which would rest the artistic reputation of the paper. In that first drawing himself and two friends were represented entering the "studio" of a photographer in the act of smoking as the manner of artists is, and they are coldly requested by the deity of the place to leave their smoking-tackle outside, as "they are in an artist's studio" (p. 150, vol. xxxix.). It was a poor sketch enough, betraying a straining after comicality, while lacking every trace of the grace and beauty the draughtsman was so soon to develop. Mr. Du Maurier was Parisian born, and after studying with a view to a scientific career, he became convinced, through Dr. Williamson's amiable assurance, that he would make a "shocking bad chemist," that art was more in his line than science—more especially as his professors had been delighted with such little caricatures of his as they had seen; but, as he suggestively put it in his lecture on "Social Pictorial Satire," "they had not seen them all." He studied art at Antwerp and Paris in company with several notabilities of the day; but when he lost the sight of one eye, and found the other seriously imperilled, his chances of success in life seemed small. It was while lying during his long illness in the Antwerp hospital, in 1858, that he saw Punch's Almanac, a delight which he never forgot. When he recovered his ordinary health he returned to England, though with little improvement of sight to cheer him. With a courage, however, equal to that of Sir John Tenniel, he girded himself against fate; he worked hard in London, where he lived in humble lodgings, at 85 Newman street, which he shared with his life-long friend the late Lionel Henley, afterwards R.B.A.—"the dearest fellow that ever was." He sometimes wondered, he told me, if he would eat a dinner that day; and, as becomes the impecunious, he was a tremendous democrat. He "hated the bloated aristocracy without knowing much about it, and, to do it justice, the bloated aristocracy did not go out of its way to pester him with its attentions." But although in those happy, hungry, hard-working days, dinner was not always a vested interest, Mr. Du Maurier seemed already tinged with the daintiest tastes that were destined to lead his pencil to the delineation of these same "bloated" classes; and even in those hard times he could always boast a dress suit.

His creations—his types and "series"—are to some sections of Punch's admirers Punch's chief attraction. Especially is this the case in the United States, where to Mr. Du Maurier many people have looked almost exclusively, not only for English fashions in male and female attire, and the derniere mode in social etiquette, but for the truest reflections of English life and character. First of all these types are Sir Gorgious Midas—who the artist once confided to me was drawn without exaggeration from real life—and his common wife and still vulgarer son. Then Mrs. Ponsonby de Tomkyns, the clever and scheming, and her husband, depressed and stolidly obedient; the Bishop and the Flunkey, all calves and dignity; Grigsby, the "comic" man, and his inflated with pretentious emptiness; 'Arry and 'Arriet, blatant and irrepressible; young Cadby, the Cockney, and the Duke and Duchess of Stilton, whose very figures seem to be drawn in purple ink; the refined Colonel, a counterpart and not unworthy comrade of Newcombe himself; Maudle, Postle thwaite, and Mrs. Cimabue Brown, most delightful trio of sickening "aesthetes"—specially beloved by Mr. Du Maurier, whose famous drawing, "Are You Intense?" is perhaps the particular favorite of all his Punch work; Mr. Sealey and Mr. Todeson, who vie with each other in vulgar servility and sycophancy; the Herr Professor, ponderously humorous in smokingroom or boudoir, and Anatole, the bridegroom, happy and dapper in the Bois de Boulogne; of carefully differentiating specimens of London's characteristic inhabitants!

Like Keene and others, Mr. Du Maurier has suffered from time to time from printers' errors. One of the most curious, perhaps, is that in which three little boys are shown in a drawing playing upon a sofa, evidently very much in the way of their elder sister, who is receiving a visit from her admirer. The sister asks her brother with pardonable point if they will not go and play downstairs. No, the eldest replies, mamma has sent them up "to play forefeits." The joke, utterly pointless, as printed, becomes intelligible when it is explained that "forfeits" is an error for "propriety." Many of his jokes, as already explained, have come from various friends; indeed in his case they are less often manufactured than in that of others. All the same, it may be of interest to record that the oft-quoted joke of the aesthetic young couple who agreed that they must "live up to" their blue and white teapot, was not "made up," but was spoken in downright, imbecile earnest.—Harper's Weekly.

That Tired Feeling.

Is a common complaint and it is a dangerous symptom. It means that the system is debilitated because of impure blood, and in this condition it is especially liable to attacks of disease. Hood's Sarsaparilla is the remedy for this condition, and also for that weakness which prevails at the change of season, climate or life.

HOODS PILLS act easily, yet promptly and efficiently on the bowels and liver. 25c.

BRITISH COLUMBIA.

DUNCAN'S.

Duncan's, Aug. 30.—The interest in the Cowichan-Alberni election increases as the day of nomination approaches. The consensus of opinion is that Mr. Huff will again be elected. A remarkable argument is being used against him in Cowichan, and that is that he will get more for Alberni than Major Mutter will for Cowichan, because Huff is the more enterprising. R. R. Halbed, his opponent, is at present canvassing the district.

NANAIMO.

Nanaimo, Aug. 30.—The home of Percy Good, on the "five acres," was totally destroyed by fire last night. All the furniture was saved. There is no insurance on the house. The cause of the fire is attributed to incendiarism.

The forest fires have considerably abated within the last twenty-four hours, and it is said that they are now under control. The Nanaimo fire department have declined to turn out again to bush fires, owing to the government agent again refusing to pay them for their services in the district.

At a special meeting of the council last evening the by-law which was to have been submitted to the ratepayers on Saturday for the purchase of the waterworks, was withdrawn on the advice of the police magistrate, and another is to be submitted instead.

The programmes for the labor day celebration are now out, containing full particulars of the day's proceedings.

There is every reason to believe that this will be the most important labor demonstration ever held in the province. A very large attendance from all over is assured.

At last evening's meeting of the representatives of the building trades in this city, it was unanimously decided to participate in the demonstration. A big turn out of bricklayers, stone masons, carpenters and painters may be expected in the procession.—Free Press.

KASLO.

Kaslo Claim.

The railroad contractors have advanced wages from $1.75 to $2, for the purpose, it is said, of keeping the men from going to the C. P., which will soon begin operations at Three Forks.

While coming down from the front last Wednesday night at 11 o'clock engine No. 1, now engaged in track-laying, left the rails on a sharp curve near Kemp's mineral springs, and plunged down the embankment, bringing up flat on her side some distance from the track. Fortunately no one was injured. On account of the proper appliances not being at hand, it was necessary to send to Pilot Bay for tackle, etc., and by reason of the mishap a delay of several hours was occasioned.

H. C. Andrews, the mining man, who last week went with Dick Gallup to look at the President and other valuable properties belonging to Mr. Gallup on the Duncan, has returned and is now in town. He is very favorably impressed, both with the property and the country. The great need of Lardo and Duncan, which country is all tributary to this city, is more and better trails.

John Augstrom, a railroader, who said his home was in Spokane, was fined $100 for brandishing a loaded revolver. The alternative was six months at hard labor.

THE RIFLE.

GOVERNOR - GENERAL'S PRIZE.

Ottawa, Aug. 30.—The feature of today's shooting was for the Governor-General's prize, which was won by Quartermaster Ogg, Guelph field battery, with a score of 96 points.

The Grenski match, which was fired yesterday, was decided to-day in favor of the 3rd Victoria Rifles of Montreal, getting the cup and $70, with 444 points. There were seven prizes, and British Columbia did not get one.

NELSON.

Nelson Tribune.

Porter Brothers, the well known contractors, have been awarded a contract for a variety of work in connection with the Slocan Star. They will build tramway, dums, and ore chutes, and will use a large quantity of lumber.

Dan Turney and partner have returned from a prospecting tour on Hauser creek, a tributary of Hauser lake. He reports having made some fine locations. Specimens from the surface croppings assay seven dollars in gold and considerably over one hundred ounces in silver.

Six tons of free gold ore from the Fern, a Hall creek claim, has been freighted to the Poorman mill for treatment. It will be run through next week, and if the returns are up to expectations, the Fern will be worked.

The cribbing for the Silver King 200-foot ore bin is all in place, and the excavation for the two receiving bins is nearly completed. The towers for the tramway will all be up next week, and the wire rope is now being delivered at points along the line of right of way.

A. J. Becker, who has the contract for running the crosscut tunnel on the Starlight, on Toad Mountain, expects to reach the vein within a month. One vein has already been cut, which shows ore that makes the parties who have the Starlight bonded imagine they have a mine. If it turns out to be a mine, a mill will be erected on the property, the ore being a free milling proposition.

While the statement has not the official sanction of anyone connected with the management of the Hall Mines, Limited, it can be stated that the company has decided not to build a smelter, but to contract its ore to one of the great smelting companies operating in the United States, one of the conditions being that the smelter is to be erected at Nelson. The Omaha-Grant people seem to have the inside track at present for securing the contract.

The Nelson & Fort Sheppard roadbed and track is to be put in first class shape. Additional section men have been distributed at several points along the line and a steam shovel and a work train will be put on next week. By the time Five-Mile point is reached, it is just possible that an amicable arrangement will have been reached with the Canadian Pacific, whereby the Nelson & Fort Sheppard will be permitted to build into Nelson.

W. C. Ward, superintendent of the Bank of British Columbia, came in from Victoria on Tuesday. He is reported as saying that this country is in good condition financially, and that the outlook indicates a lengthened period of business activity. This coming from the superintendent of the most conservative bank in Canada is encouraging to say the least.

The bush fires have somewhat interfered with the ore supply of the Pilot Bay smelter but no time has been lost. The Tribune's representative received corroboration of the report that a new stack is to be added. From reliable sources it was learned that this matter will occupy a great deal of Mr. Hendryx's attention on his present trip east, and that the work will be begun shortly if satisfactory arrangements are made. This will mean the employment of additional force.

All the men that come to Kootenay are not miners. Some are farmers, and some of these farmers see money in sight in cultivating the arable land along the outlet between Balfour and Nelson. One of these men is A. S. Gray, who is cultivating land on the south side of the outlet about four miles west of Balfour. Another is F. K. Hurry, who has a few acres under cultivation on what is known as Hume's addition to Nelson. Mr. Gray has several acres in grain and vegetables, and he says that he never saw crops that looked better in any country in which he has lived. As proof that Mr. Hurry has something in sight, he has contracted to deliver 500 sacks of potatoes to one firm at Nelson. It has been proved that grain, vegetables, and fruits can be grown on the land bordering Kootenay lake, and it is not all improbable that a fair per centage of the produce consumed in the mining camps and towns in Southern Kootenay will be grown right here at home. All that is needed is energy and industry on the part of the men who undertake to cultivate the soil. The soil is productive and the market is within sight.

CHILLIWACK.

Chilliwack Progress.

Arthur Ennis met with a loss last Thursday morning in having his house burned.

Rev. P. C. McGregor, of Underwood, Ont., has accepted a call to the First Baptist church of Chilliwack, and has written that he will be here by the 1st of October.

The youngest mail carrier in Her Majesty's services, that we know of, in the Dominion, is Master Willie Webb, 10 years of age, who does his work promptly and well, and is carrying the mails from here to Sardis.

Tom White's house was burned last Friday on his ranch at Promontory Flats. It caught fire from a lamp exploding and spread so rapidly that nearly everything was burned, including some money.

J. J. and Robert Kerr have commenced the erection of a creamery on J. J.'s property in town. This new enterprise will be conducted by the above gentlemen, who will pay cash for the cream when delivered.

The Fruit Growers' Association have been very busy during the past week. They have shipped to the cannery 4757 pounds of culled apples and 13,290 pounds of plums. To the local markets in the cities has been sent of plums 862 boxes, and of apples 176 boxes. This is the work of the week ending the 27th. A large shipment was made this morning down the river and the final shipment will be made to-morrow to complete the carload which leaves Westminster on or about Friday for Calgary. Mr. J. Peers goes down to superintend the loading of the fruit.

—The Gazette announces the following appointments: To be Justices of the Peace:—Henry McDermott, of Barkerville, for Cariboo; William Robertson, of Salt Spring Island, for North Victoria Electoral district; Rev. Smith Stanley Osterhout, of Lake Kalzap, Naas River, Cassiar, for Cassiar Electoral district. James Robert Brown, of Penticton, to be a notary public for Yale Electoral district. William Armstrong of New Wesminster, to be warden of the provincial jail at the said city, vice William Moresby, resigned. James Armstrong, Donald, to be registrar of the county court of Kootenay, collector of votes, district register, and to perform the duties allotted to stipendiary magistrates under the "Bills of Sale Act," all for the East Kootenay Electoral district. Frank C. Lang, of Golden, to be an assessor and collector under the "Revenue Tax Act," for the Donald Division of the East Kotenay Electoral district. Josiah Stirrett, of Donald, to be a collector under the "Revenue Tax Act, and a mining recorder for the Donald Mining Division of East Kootenay Electoral district.

CONGREGATION EMANU-EL.

Officers Elected for the Ensuing Year—A New Cemetery.

At their annual meeting the congregation of Temple Emanu-El, elected officers for the ensuing year as follows: J. Isaac, president; E. Frank, vice-president; Gus Leiser, treasurer, and F. Landsberg, secretary. I. Braverman, H. Freeman, S. M. Hartman and H. Bornstein were appointed a board of trustees. The secretary was requested to send letters of condolence to the relatives of the late H. A. Levin.

Arrangements were made for the New Year's celebration on September 18th. It was decided to invite Miss Rachael Frank, of Oakland, Cal., to lecture on Judaism on that evening. In case she cannot attend the senior members of the congregation will conduct the services.

The congregation having decided to have a new cemetery, a committee of five was appointed to purchase three acres of land near the Ross Bay cemetery from Messrs. Lee & Fraser. The dead now buried in the cemetery on the Cedar Hill road will be removed to the new cemetery by the congregation, except in cases where the remains are claimed by relatives and removed by them. Some of the bodies will be taken to other cities by relatives. The new cemetery will be taken possession of almost immediately and the old one offered for sale.

—Banish dull care by using Adams' Tutti Frutti. It aids digestion and gives tone to the system. Refuse imitations.

"Who is this Dean Swift they are talking about?" whispered a society lady to Dean Bulwer at a party. "I should like to invite him to one of my receptions."

"Alas! madam, the Dean has done something that has shut him out of society."

"Dear me! you don't say so! What a dreadful thing! exclaimed the lady in a breath. "And what was it?" she added.

"Well, about a hundred years ago he died."—Tit-Bits.

"We always fry ours in Cottolene."

Our Meat, Fish, Oysters, Saratoga Chips, Eggs, Doughnuts, Vegetables, etc.

Like most other people, our folks formerly used lard for all such purposes. When it disagreed with any of the family (which it often did) we said it was "too rich." We finally tried

Cottolene

and not one of us has had an attack of "richness" since. We further found that, unlike lard, Cottolene had no unpleasant odor when cooking, and lastly Mother's favorite and conservative cooking authority came out and gave it a big recommendation which clinched the matter. So that's why we always fry ours in Cottolene.

Sold in 3 and 5 lb. pails, by all grocers. Made only by THE N. K. FAIRBANK COMPANY, Wellington and Ann Streets, MONTREAL.

MUNICIPAL.

TO PROPERTY OWNERS.

Tax notices for the year 1895 were posted on the 28th, August instant, to those on the Municipal Assessment Roll for the current year.

Notice to Water Consumers.

The attention of consumers of water supplied from the City Water Works is hereby drawn to Sections 12, 20, and 23 of The Water Works Regulation By-Law, 1894, which provides that from the 15th day of April to the 15th day of September, both inclusive, in each year, no consumer of water of the said water works shall use such water for irrigating except on the respective days hereinafter mentioned, namely:

In the North Ward on Mondays and Thursdays.

In the Central Ward on Tuesdays and Fridays.

In the South Ward on Wednesdays and Saturdays.

If water is used for watering lawns or gardens at other than the time hereinbefore mentioned the water will be turned off, and there shall be charged in addition to ordinary rates the sum of fifty cents for each infraction.

The above penalties will be strictly enforced.

ABSOLUTELY PURE

SECOND OF THE TRIAL RACES

Defender and Vigilant Being Keenly Watched by Yachting Enthusiasts.

Vancouver Team Will Not be Here for To-Morrow's Lacrosse Match.

YACHTING.

THE SECOND TRIAL.

Highlands, off Navesink, N. J., Aug. 30.—Better winds, and water almost free from haze or fog, gave promise at 8:30 o'clock this morning, of a more interesting contest between the yachts Defender and Vigilant than the one which took place yesterday. During the morning the wind had held nearly steadily in the northeast, and was blowing about 12 knots an hour. The temperature had moderated greatly during the night, and the air was fresh. There were indications of a falling off in the number of steamers and yachts that would follow the course of the racers, the outcome of yesterday's sail having satisfied the general public of the superiority of the Defender.

With Valkyrie III. near by, the two American yachts passed the night anchored inside the Horseshoe, the tenders of all three racers lying alongside their respective charges. If the wind holds in the northeast the course will be a beat of ten miles to windward towards Far Rockaway, and the run home of ten miles. The committee may order the course to be sailed a second time, if they so desire.

At 10 a.m. the Vigilant was about a third of the way out to the lightship, the Defender rapidly nearing the inside of the Hook. The wind is from the east, about nine knots an hour, and a nice little sea kicking up outside the Hook, which the Vigilant evidently felt. The yachting sharps ashore are anxious to see how the Valkyrie would behave.

At 10:50 the judges' boat signalled for the yachts to sail ten miles to windward and return. At 11:02 a.m. the preparatory signal was hoisted. At 11:22:35 Defender crossed the line, and at 11:12:40 the Vigilant crossed. Defender and Vigilant are both carrying mainsails, club topsails, foresails and jibs.

11:15 a.m.—Defender went to windward of Vigilant. At 11:17 both yachts went about on the port tack and headed along the Jersey shore on about the same terms, Defender still to windward. At 11:20 Defender had a lead on Vigilant and was rapidly leaving her. Her mainsail appeared to be a third larger than Vigilant's. At 11:33 Defender led by a quarter of a mile, both boats sailing very fast.

The Valkyrie soon after the start passed outside the Hook, under her mainsail, working topsail, foresail and jib. She seemed to dive deeper into the swell than either the Vigilant or Defender.

At 12:40 Defender went about again on the port tack. Both yachts were then heading for the stake boat, and Defender seems to be about two miles ahead. Defender turned the stake boat at 12:50 1-5. The Vigilant is using her light sails, and is tearing after the Defender in great shape. Both yachts have their balloon jibs and spinnakers pulling grandly. The Defender finished at 2:05 p.m. Vigilant finished at 2:10 p.m. The official times were: Defender, 2:02:18; Vigilant, 2:07:40.

At 1:15 the Valkyrie put about and headed away to the southwest in order to get a good look at the racers as they tore away home before the wind. At 1:15 the two yachts had covered about three miles of the run home, and the Valkyrie was heading toward them on the port tack. It was calculated that if she kept on she would meet the racers not far from the finish line. The British yacht is going along easily under her mainsail, working topsail, foresail and large jib. The American boats presented a fine appearance as they came tearing back to the lightship, Defender not having increased her lead over the Vigilant. The wind at this hour was dying away, and only blowing about seven or eight miles an hour. Both yachts had sailed near half the distance to the finishing line, and the Valkyrie was jogging along waiting for them.

Dartmouth, Aug. 30.—At the Royal Dartmouth club regatta today the Isolde beat the Niagara, Luna and Inyoni.

LACROSSE.

SATURDAY'S GAME.

Last evening at six o'clock the secretary of the Triangle Lacrosse Club received a telegram from Mr. Quigley, of the Vancouver Lacrosse Club, saying that it would be impossible for them to send a team for the game here to-morrow, owing to four of their players being disabled in the match of the 24th inst. with the Westminster team, and asking to have the game postponed till the 7th. As all preparations had been made by the Triangles for Saturday's game here, the Vancouvers were immediately wired to the effect that they would have to play or forfeit the game. This of course would throw the title of championship to the Westminster club. Another telegram was received here this morning from Vancouver saying that it was impossible to make up a team and that if Victoria had given her final decision Vancouver would have to lose the game by default. Thinking that it was the intention of the Vancouver team to go east on their tour next week, and only send a junior team here on the 7th if the game was postponed, the Triangles telegraphed asking whether if a postponement was arranged Vancouver would send down their full senior team, and the following assurance was received: "Will bring full team if game is postponed. Quigley." Seeing that it was impossible for the Vancouvers to be here to-morrow, and the Triangles not desiring to rob Vancouver of any chances of the championship on a technicality, they accordingly agreed to postpone the game until the following Saturday, September 7th. This, of course, will be quite a disappointment to a great many lovers of the game here, but it was the only thing to do under the circumstances. However, so that none shall be disappointed, for to-morrow afternoon a game has been arranged between the Triangles and Capitals, on the Caledonia grounds, which will be a good exhibition of our national game, as both teams will be strongly represented. This will also be a good practice for the Triangles. The postponement of the championship game to-morrow will hurt the Triangles financially, as there would have been no powerful counter-attraction. On the 7th the J.B.A.A. hold their annual regatta, and of course this will keep quite a few from attending the game. It is to be hoped that the friends of both the Triangles and Capitals will turn out in full force to-morrow and help them out of their trouble. The game will begin at 3 p. m. sharp, the ball being faced at that hour by His Excellency the Governor General.

CRICKET.

PICKED TEAMS.

The Victoria Cricket Club being unable to keep their engagement with the Albions on Saturday, the following teams have been selected to play:

H. L. Gulline (captain), A. C. Anderson, W. York, H. Martin, L. York, E. A. Pauline, H. Scholefield, A. S. Innes, W. T. Williams, T. N. Hibben and P. A. C. Arnfelt.

H. Cuthbert (captain), A. A. Green, R. H. Swinerton, C. Schwengers, J. E. Martin, J. J. Bothwell, A. Booth, A. McLean, H. C. Janion, L. B. Trimen and W. Savory.

INTERNATIONAL MATCH.

The international match between the Multnomah Athletic Club of Portland, Oregon, and the Victoria Cricket Club, will be played at Portland on Friday and Saturday, the 27th and 28th of September, all arrangements having been completed to bring off the match on these dates. The Multnomah club have a very strong eleven, but the Victoria cricketers have done so well this season that there is little doubt of their ability to hold their own. The match will be one of great interest to the cricketing enthusiasts of the Pacific coast, and will be the third visit to Portland of a British Columbia eleven.

LAWN TENNIS.

THE CANADIAN TOURNAMENT.

Niagara-on-the-Lake, Ont., Aug. 30.—Yesterday was another day of brilliant playing in the Canadian international tennis tournament. A large and fashionable gathering assembled at the Queen's hotel court, where the tournament is being held, and enthusiastically applauded the contestants. The American cracks are showing up in unusually strong form and it begins to look as though they would carry everything before them. R. W. P. Matthews, ex-Canadian champion, and W. F. Anderson, of Toronto, are the only Canadians still in the race for honors. The Americans who are still undefeated are: Carr, B. Neal, of Chicago, who is the Western champion; J. F. Talmage, of Yale, and E. P. Fisher, the well known New New York player. The day's matches were brim full of splendid tennis.

THE RIFLE.

The Bisley team will be selected from the following, who stand in the order given: Sergeant Harp, 48th; Captain Spearing, 53rd; Lieut. Ross, 13th; Lieut. Cartwright, 47th; Captain Curran, Queen's Own; Major McDonald, 48th; Staff-Sergeant King, 45th; Lieut. Mitchell, 12th Private Campbell, 45th; Sergt.-Major Armstrong, Guelph; Sergt. Crowe, Guelph; Lieut.-Col. Anderson, Ottawa; Quartermaster Ogg, Guelph; Captain Mitchell, Winnipeg; Lieut. Hutcheson, 43rd; Captain Pope, Victoria Rifles, Montreal; Sergt. Mitchell, 13th; Capt. McRobbie, 8th cavalry; Staff-Sergeant Bell, Greadiers; Sergt.-Major Huggins, 13th; Private Heler, Lieut. Bent, 93rd, and Private Langstrothe, 74th.

Captain Bell, of the 43rd; Pugh, of the R. A.; Langstrothe, of the 74th, all tied for second place in the Governor-General's prize match. They agreed before firing off to divide the money, $250, between them. In the fire off Langstrothe dropped out. J. C. Chamberlain is the 30th man and H. C. Chamberlain 31st on the Bisley team, while Langley is 96th man in the 100.

FOOTBALL.

TWO CLUBS ORGANIZED.

There has been a split in the ranks of the Junior Wanderers association football club. Some of the members wanted to change the name of the club to the Fernwoods. Others objected and when they could not carry their point left the meeting. As a convenience two clubs were formed. The Fernwoods elected W. Winsby, president; L. Camsusa, secretary-treasurer, and S. Patton, captain. The Junior Wanderers elected officers as follows: President, Geo. Partridge; captain, C. Wilson; secretary, B. P. Johnston; treasurer, K. Scholefield; executive—G. Goward, H. Shandley, and R. McCann.

THE WHEEL.

Judging from the amount of kicking and threatened withdrawals which have been going on by the contestants, the final heat in the Harris road race will be a game struggle. Mr. Henry Harris, the donor of the cup, announces that the race will positively be run to-morrow afternoon at 5:30 p.m. A handsome medal has been offered for a time prize, for which any of the original competitors may enter. The city will roll and sprinkle the track to-morrow morning. Kavanaugh is credited with going the ten miles in under 28 and is rather a favorite.

THE OAR.

J. B. A. A. REGATTA.

The regatta committee of the J. B. A. A. met last evening and added the following names to the committee: Messrs. A. C. Flumerfelt, A. G. Smith, J. A. Anderson, H. F. Langhton, B. Wilson, J. E. Wilson, J. B. Griffin, R. Jones, R. J. Ker, E. H. Russell, W. A. Cornwall, F. L. McFarland, Wm. Greig, J. E. Martin, W. H. Wilkerson, Ross Eckhardt, F. A. Ker and E. A. Jacob. The committee will meet on Tuesday evening at 8:30.

CHESS.

Hastings, Eng., Aug. 30.—To-day all the games but one of those left unfinished in the previous rounds of the International Chess Masters' tournament were finished, the games resulting as follow: Blackburne beat Albin in an irregular opening, after 120 moves. Marco beat Mason in a Scotch game, after 65 moves. Gunberg beat Teichmann in a Vienna game after 82 moves. Mason and Lasker drew a Giuoco after 66 moves. Marco and Walbrodt drew a Scotch game after 86 moves.

BASEBALL.

PROVINCIAL CHAMPIONSHIP.

At a meeting held last evening the Amities decided to play Nanaimo the best two out of three games for the championship of the province. The first match will be played on the Caledonia grounds on Monday at 2:30 o'clock.

HOW ITALIANS FIGHT.

An Incident at Palermo Characteristic of the Country.

In Palermo the other day, one Crimondo and a man named Paazzolo, two notorious members of the Mafia, challenged each other to fight with daggers. The duel was proceeding when the son of Palazzolo sprang upon Crimondo and plunged a dagger into his back. Crimondo fell to the earth in a dying state. Palazzolo, with a scornful remark, tossed his dagger to the prostrate man. At this juncture a stroke from an axe smote Palazzolo from behind, and he fell dead beside the body of his antagonist. Crimondo's nephew, who had hastened to the spot to avenge his uncle's death had delivered that dreadful blow. The two murderers fled, and it is thought they will now go to swell the ranks of the marauders infesting the outlying districts and lead the life of brigands.

—W. G. Barnfield, known generally as "Sequah" the medicine man, has been summoned on a charge of practising medicine without being duly registered in accordance with the provisions of the medical act and amending acts. The information was sworn to by Thomas Browne, a stone-cutter, yesterday, and the case was called in police court this morning. "Sequah" appeared, accompanied by his solicitor, Frank Higgins, while G. H. Barnard, of the firm of McPhillips, Wootton & Barnard, represented the prosecution. The defence asked for and obtained a remand until 3 o'clock, at which hour the case was resumed. Mr. Browne was the first witness, but when the Times went to press his examination had not been completed.
